LEE'S DESCRIPTIVE SEED ANNUAL

Arthur G. Lee
Fort Smith,
Arkansas.

Established
1898

Lee's Best Seeds

Established
1898

AT

Moderate Prices

In our 1908 annual we spoke of moving into larger quarters, which was necessitated by the steady growth of our business demanding more room to care for the large stocks which we were forced to carry, that was the third time since the establishment of our business in 1898 that it had been necessary for us to seek larger quarters to care for our fast growing business, and now for the fourth time in twelve years we again find our present quarters inadequate and on May 1st we will remove to the four story and basement building, known as the Speer Building, on Garrison Avenue. This will give us almost three times the floor space we have at present and will enable us to carry larger stocks in all departments.

We cannot but believe that LEE'S SEEDS AT MODERATE PRICES which we maintain are as good as can be produced, are meeting with the approval of our customers, otherwise the steady increase in our business would not be possible. If you are not already a customer, is not our past record sufficient assurance of our ability to care for your requirements for the coming season? It pays to entrust your orders to seedsmen with a reputation established and to be maintained.

We are Direct Importers of Seeds from Europe and are Prepared to Meet
All Reliable Competition

We wish to call your special attention to some of the special varieties of seeds, which we recommend, a description of which will be found among their respective places throughout the catalogue.

Beet, Lee's Market Gardener.
Cabbage, Lee's Early Market
Canteloupe, Rocky Ford.
Lettuce, Lee's Market Gardener.

Lettuce, Fort Smith Market.
Radish, Lee's Selected Scarlet Globe.
Tomato, Lee's Market Gardener.
Water Melon, The Watson.

MARKET GARDENERS

While we have made the prices as low as consistent, considering the quality of the seeds we offer, yet frequently when several pounds or bushels of seeds are wanted we can make lower prices.

SEND US A LIST OF YOUR WANTS

IMPORTANT

DELIVERY—Our prices are based on customers paying express and freight charges. When wanted by mail, add 15c per quart on peas and beans, 10 cents per quart on corn, and 10 cents per pound on vegetable seeds. **We pay postage on Seeds ordered by packet, ounce and quarter pound.**

Twelfth Annual Catalogue

ARTHUR G. LEE

Seed Merchant and Importer

South Fourth and
Rogers Avenue }

FORT SMITH, ARK.

A WORD TO MY CUSTOMERS & FRIENDS

I have made every preparation this year to take care of your orders promptly, by providing larger stocks than ever before. I am especially thankful for your liberal orders the past year and trust I may hear from you frequently during the present year 1910.

Yours very truly,
ARTHUR G. LEE.

VEGETABLE SEED

Collection No. 1

This collection has been extremely popular hundreds of our customers send for it each year. Contains ten (10) of our Mammoth Packet Seeds embracing seeds for early planting.

Only 25c, Postpaid

25c BEET—Early Eclipse,
ONION—Red Wethersfield
RADISH—Early Scarlet Globe
TOMATO—Livingston's Beauty
CABBAGE—Early Jersey Wakefield
LETTUCE—Black Seed Simpson
PEPPER—Large Bell
MUSTARD—Early Curled
EGG PLANT—New York Improved
TURNIP—Seven Top

VEGETABLE SEED

Collection No. 2

Only 25c Postpaid

25c BEET—Early Blood Turnip
RADISH—Long Scarlet
RADISH—White Lady Finger
TOMATO—New Stone
CABBAGE—Late Flat Dutch
LETTUCE—Hanson
CUCUMBER—Long Green
OKRA—Long Pod
CANTELOUPE—Rocky Ford
WATER MELON—Kleckleys Sweets

POSTAGE

Special Notice Important: When seeds are to be sent by mail, except where otherwise stated postage as follows must accompany orders:

5c for $\frac{1}{2}$ lb. 10c for 1 pound

10c per pint 15c per quart

Prices named in our catalogue are net f. o. b. Fort Smith excepting on packets, ounces and quarter-pounds, on which we will pay postage. So many overlooked this matter last year that we call special attention to it this season.

PLEASE READ THE FOLLOWING CAREFULLY

When Comparing Our Prices with those of other catalogues, please remember that our Freight and Express rates are very low.

For Convenience in Making up your Order we have made all prices in our catalogue net. If wanted by mail add 15 cents per quart on

Peas and Beans; 10 cents per quart on Corn; 10 cents per pound on Vegetable Seed. We pay postage on Seed ordered by packet, ounce or quarter pound.

Prices Made in this Catalogue are subject to our stocks being unsold when order is received.

HOW TO ORDER

CASH should always accompany the order.

Money can be sent safely by either Postoffice Money Order, Express Company's Money Order, or Bank Draft. We accept stamps the same as money.

No goods sent by us C. O. D., unless one-half is remitted with order.

We guarantee the safe arrival of all orders sent out by mail, and in the event of their being lost, will refill order without charge.

Warranties: While I exercise the greatest care to have all seeds pure and reliable, and believe them to be equal to any that can be obtained, but inasmuch as the crop is dependent upon soil and its preparation, influenced by weather conditions, I will sell no seeds with warranty expressed or implied, and will not in any way be responsible for the crop. Seeds not accepted on these conditions must be returned at once and any money paid for same will be refunded.

Refugee, or 1000 to 1: Pods round and thick; beans speckled; medium to late. Pt. 10c, qt. 20c, pk. \$1.25, bu. \$4.25.

Early Mohawk—Hardest of the early varieties of green pod bush beans. May be planted rather early, as it will stand a slight frost. Pt. 10c, qt. 20c, pk. \$1.25, bu. \$4.25.

WAX PODDED VARIETIES

Improved Golden Wax—Excellent for home use. Pods long, brittle, entirely stringless, of rich buttery flavor (rust proof). Pt. 10c, qt. 20c, pk. \$1.50, bu. \$5.25.

Prolific Black Wax—Pods round, yellow and stringless; beans oblong, jet black. Pt. 10c, qt. 20c, pk. \$1.25, bu. \$4.50.

Pencil Pod Wax—Tender and of a most luscious quality. Pods smooth, perfectly round and straight as a lead pencil. Very hardy and prolific. Specially recommended to market gardeners. Pt. 15c, qt. 25c, pk. \$1.50.

Wardwell's Kidney Wax—Pods long, nearly straight, white, wax-like and handsome. The richest and best flavored Dwarf Wax Bean.

Beans large, kidney shaped, white, with dark markings about the eye. Matures very early. Stands shipping well and is a profitable variety for the market gardener. Pt. 10c, qt. 20c, pk. \$1.25, bu. \$4.50.

Curries' Rust Proof Black Wax—This is an early, productive, good bean, having long, flat, yellow pods of fine quality. Foliage healthy and rust proof. Recommended for fall planting. Pt. 10c, qt. 20c, pk. \$1.50, bu. \$5.00.

BUSH LIMA BEANS

Henderson's Bush Lima—Early. A reliable and heavy yielder. The dry beans are white and small. Pt. 15c, qt. 25c, pk. \$1.50.

Burpee's Dwarf Lima—Pods as large as those of the Pole Lima, and contain three to five beans of the best quality. Pt. 15c, qt. 25c, pk. \$1.75.

Dreer's Dwarf Lima—Thick pods and large thick beans, three or four in a pod. Pt. 15c, qt. 25c, pk. \$1.50.

RUNNING OR POLE BEANS

Culture—One pint to 100 hills, $\frac{1}{2}$ bushel will plant an acre. Plant in drills three feet apart and provide a stake or pole to climb upon.

Kentucky Wonder, or Old "Homestead"—Pods green, very long, nine to ten inches, nearly round fleshy and of a good flavor; beans oval, dun colored. Best green podded pole bean. Pt. 20c, qt. 30c, pk. \$1.50.

Cut-Short, or Corn Hill—Can be grown among corn. It will make a crop without poles. Beans cut off at the ends; white and spotted, pods green, round and succulent. Pt. 15c, qt. 25c, pk. \$1.50.

White Creaseback—Very early, productive, round meaty pods, entirely stringless. Dry beans are pure white. Pt. 15c, qt. 25c, pk. \$1.50.

Dutch Case Knife—One of the earliest of the pole varieties; white seed; used for snaps; is good green or dry; a good winter sort; productive; a good bean for planting among corn. Pt. 15c, qt. 25c, pk. \$1.50.

Lazy Wife—Great favorite. Pods dark green, four to six inches long; beans round, white, of rich buttery flavor when cooked. Pt. 20c, qt. 35c, pk. \$2.00.

Large White Lima—A late variety; much esteemed both for market and family use. Pt. 15c, qt. 25c, pk. \$1.50.

Horticultural Pole or Cranberry—Of the highest quality as a shell bean, either green or dry. The mammoth pods are striped and splashed with exceedingly brilliant crimson. The beans, when fit for use, are of immense size. Pt. 20c, qt. 35c, pk. \$2.00.

BEETS

THE BEST GARDEN VARIETIES

If by mail, add 10c per pound to pay postage. One ounce sows 50 feet of drill; 5 lbs will plant an acre.

Culture—The best results are obtained on a rich sandy loam. Sow in drills 18 inches apart and thin out to 4 inches in the row.

Eclipse: Very rapid grower. Dark blood color; fine grained and sweet. Pkt. 5c, Oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 50c.

Extra Early Egyptian Blood Turnip: A good variety for forcing and excellent for first early crop out of doors, being very early, with small top. Leaf stems and veins dark red, rounded on top but flat beneath, with very small tap roots; flesh dark red, zoned with lighter shade; hard, crisp and tender when young, but becoming woody with age. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 50c.

Crosby's Egyptian: The name of this variety is misleading, as it resembles the Egyptian only in its extreme earliness. It is larger, lighter colored and more nearly spherical; one of the best for early planting out of doors. It is a most excellent sort, becoming fit for use sooner than any other variety, but it is not as well suited for forcing in hot beds or transplanting as the Egyptian. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 50c.

Lee's Market Gardener: One of the best Blood Turnip Beets we offer, and for the market gardener and trucker a better beet does not exist. It has been thoroughly tested and found to be everything that is claimed for it. It has fine form, small tap roots, and tops are so small and erect that this variety may be grown quite closely in the rows. Short, dark blood red; flesh blood red, zoned with a lighter shade. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60c.

NOTICE—If Beans are wanted by mail, add 15c per quart for Postage.

Electric Blood Turnip—An extra early rich red fleshed beet, coming in with the flat Egyptian, but much larger and of almost globular shape. The flesh is fine grained and tender. Highly recommended to the market gardeners for early forcing. Pkt. 5c, Oz. 10c, $\frac{1}{4}$ Lb. 20c, Lb. 60c.

Improved Early Blood Turnip—This beet does not mature so early as those named above. It is an excellent one for the home garden and summer use. Pkt. 5c, Oz. 10c, $\frac{1}{4}$ Lb. 20c, Lb. 50c.

Long Dark Blood—A variety that is good in every way. Comes in in the fall; keeps well through the winter. Pkt. 5c, Oz. 10c, $\frac{1}{4}$ Lb. 20c, Lb. 50c.

Sugar Beets

White French Sugar—The sort most largely grown for stock feeding in Europe, where the superior value of the Sugar Beets over the Mangel Wurzel is generally recognized. This sort is so rich in sugar that it is sometimes grown for sugar factories. Yields about 20 tons to the acre. Oz. 5c, $\frac{1}{4}$ lb. 10c, lb. 30c.

Mangel Wurzel

Unexcelled for Feeding Live-Stock

Sow in drills in April. Six pounds will sow an acre.

Every person who owns no more live-stock than a single cow should cultivate a patch of Mangels. These roots are greatly relished by horses, cattle, sheep and swine.

Mammoth Long Red—It has yielded as high as 40 tons to the acre. Flesh red, fine texture and best quality. Oz. 5c, $\frac{1}{4}$ lb. 10c, lb. 30c.

Borecole, or Kale

One ounce for two thousand plants.

Culture—Seeds may be sown in moderately rich soil in an exposed situation, in March or April. In transplanting, treat the plant like young cabbages. The central leaves are used as spinach, and are much improved by frost.

Tall Green Curled Scotch—Very hardy, thirty inches high, dark green and densely curled. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c, lb. 75c.

Dwarf German Greens—Large, light green leaves, coarsely cut on the edge; best for fall sowing. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60c.

Siberian Early Curled—Very hardy, will stand freezing weather probably better than any other sort. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60c.

Tools and Cultivators

We carry a complete line of **Planet Jr. Tools**. Write for descriptive catalogue.

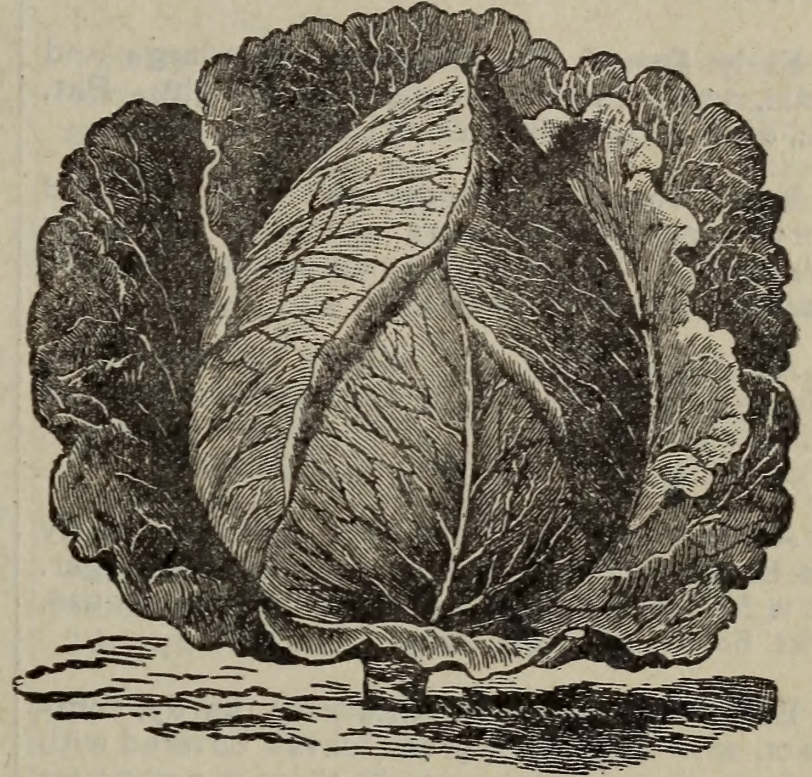

Cabbage

If by mail, add 10c, per pound for postage. One ounce of seed for 2,000 plants, 10,000 plants to the acre.

Culture—A heavy, moist and rich loam is most suitable, which should be highly manured and worked deep. Sown very early in hot-beds, hardened off by gradually exposing them to night

air and as early as the ground is in good condition transplanted, setting 18 to 36 inches apart, according to size and variety.

Early Jersey Wakefield: Is selected stock. Market gardeners, truckers and large cabbage growers have long recognized this variety to be the earliest marketable cabbage. It is a reliable certain header and one of the most profitable cabbages. Medium in size, in shape pyramidal, pointed peak. We carry a **specially selected strain** of this seed, grown by a cabbage specialist on Long Island. No better seed can be obtained. Pkt. 5c, Oz. 20c, $\frac{1}{4}$ lb. 75c, lb. \$2.00

EARLY JERSEY WAKEFIELD

Charleston Wakefield Cabbage—This cabbage contains many of the characteristics of the Early Wakefield, but is larger, the heads often weighing from 15 to 20 pounds, and a little later in maturing. It is a combination of earliness, size, uniformity and solidity. Where these qualities are desired this cabbage commends itself as a most profitable and desirable sort; whether for shipping, the home, market or the family garden. Pkt. 5c, Oz. 20c, $\frac{1}{4}$ lb. 75c, lb. \$2.00

Early Spring—The earliest flat headed variety. A wonderfully compact plant, with few outer leaves, so that a great number of fine, solid heads can be produced on an acre. Although it does not come to full maturity as early as Jersey Wakefield, it becomes solid enough for use about as early, and is by far the best early sort for markets that demand a large flat cabbage. Pkt. 5c, Oz. 20c, $\frac{1}{4}$ lb. 75c, lb. \$2.00

Early York—An old favorite in the family garden. Heads small, heart shaped and firm. Almost certain to head, and is a good shipping sort. Pkt. 5c, Oz. 20c, $\frac{1}{4}$ lb. 60c, lb. \$1.75.

SECOND EARLY VARIETIES

Lee's Early Market New: Amongst many sorts of White Cabbage none of them combine those two desirable qualities of being large and early as well as this sort. We can recommend this as a really early Cabbage (coming in as early as the Early Flat Dutch) but at the same time making fine, large ball-shaped heads; particularly suited for market purposes. Pkts. 10c, oz. 25c, $\frac{1}{4}$ lb. \$1.00.

Early Winningstadt: Not quite as early as Wakefield. Makes dark green, conical shaped hard heads. Pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 60c, Lb. \$1.75

Early Dwarf Flat Dutch: Heads large and solid, round, short stemmed and upright. Pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 60c, Lb. \$1.75.

Early Summer (Henderson's): A splendid sort for market gardeners, coming in just after Wakefield. Makes large round heads. Pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 60c, Lb. \$1.75.

All Head Early: A variety in which the plants are more compact, the leaf smoother and thicker and heads rounder than Early Summer. Pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 60c, Lb. \$1.75.

All Seasons: Ready to cut nearly as early as Early Summer, but is considerable larger. It is fully as good for winter as for summer use. Pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 60c, Lb. \$1.75.

Early Drumhead: Plants very hardy, compact, with thick dark green leaves, covered with a dense bloom which protects them in a measure from worms. Heads flat, very solid and of good quality. Pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 60c, Lb. \$1.75

LATE VARIETIES

Selected Late Flat Dutch: This variety is especially adapted to the south, making large solid, flat shaped heads, out-ranking all other late varieties. Pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 60c, Lb. \$1.75.

Large Late Drumhead: Resembles the Flat Dutch, but is rounder in shape. Pkt. 5c, oz. 20c $\frac{1}{4}$ lb. 60c, Lb. \$1.75.

Original Surehead Cabbage: This popular cabbage never fails to make a remarkably fine solid, large head with few outer leaves. It originated by crossing the Flat Dutch and Drumhead varieties. It is a strong vigorous grower, ripening late for a main crop, and very uniform in size and color. Pkt. 5c, oz. 20c, $\frac{1}{4}$ 60c, lb. \$1.75.

American Drumhead Savoy: The best of its class for home use and market. Plants densely crumpled and very sure heading. Pkt. 5c, oz 15c, $\frac{1}{4}$ lb. 60c, Lb. \$1.75.

TRANSPLANTED CABBAGE PLANTS

These plants are grown from seed supplied by us, thus insuring the genuineness of all the plants we offer. Write for special quotations on large quantities.

Cabbage Plants: Early or late, doz. 10c, postpaid, 100 35c, postpaid, 1,000 \$2.25, not prepaid.

CELERIAC

Or Turnip Rooted Celery: Grown exclusively for its roots, which when cooked, sliced and used with vinegar make it a splendid salad. Pkt. 5c, oz, 20c, $\frac{1}{4}$ lb. 50c.

CRESS, OR PEPPER GRASS

A well known pungent salad. Sow thickly in shallow rows, at intervals of two weeks apart. As it soon goes to seed it should be cut when quite young. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 50c.

CAULIFLOWER

One ounce of seed will produce about 2,000 plants.

Culture: Sow in hot-beds in December or January and transplant in February or March. When heading, tie the top leaves together to protect from exposure to the sun.

Early Snowball: (Selected stock): We offer a strain of seed which is especially adapted to the South and must not be confounded with the ordinary "Early Snowball". Our market gardeners are growing cauliflower very successfully from this seed. Fall planting succeeds best making a most profitable summer crop. Pkt. 25c, $\frac{1}{4}$ oz. 50c, oz. \$1.50.

CARROT

One ounce of seed will sow about 200 feet of drill. Three pounds will sow an acre.

Culture: Carrots do better in light, sandy loam. Sow in drills 12 inches apart and half an inch deep. Thin out to 3 or 4 inches apart in the row,

Early Scarlet Horn: Suitable for forcing for market; short, nearly round; deep orange. Pkt. 5c, oz. 10c, 1-4lb. 30c, Lb. 75c.

Half Long Danvers; Suitable for all classes of soils. It makes a well formed orange colored carrot, sweet crisp and tender, and is extremely productive. Pkt 5c, oz. 10c, $\frac{1}{4}$ lb. 30c Lb. 75c.

Oxheart: Three to five inches in diameter, quality extra good. Adapted to shallow soils. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 30c, Lb. 75c.

Improved Long Orange: For main crop this is well and favorably known. It is largely grown both for table, market and stock feed. Roots long, deep orange. Pkt. 5c, oz. 10c. $\frac{1}{4}$ lb. 30c, Lb. 75c.

We Pay Postage on Seeds Ordered by Packet, Ounce and Quarter Pound.

CELERY,

One ounce of seed will produce about 7,000 plants.

Celery may be grown successfully in the South by planting as late as October, thus avoiding hot, dry weather.

White Plume: For Fall and early winter use this variety is not surpassed. It is the earliest of all celeries, and its eating qualities are the highest. By drawing soil around the plant the bleaching is done. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 40c.

COLLARD (COLEWORT)

Collards are mostly used as "greens" in some parts of the country, especially South. They are a form of the cabbage, bearing new leaves as the old ones are pulled off. True Georgia. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c, lb. 75c.

CORN SALAD, OR FETTICUS

One ounce to 35 feet of row.

It is used during the winter and early spring months as a substitute for lettuce. Cooked and served same as spinach.

Seeds may be sown in August or September, in shallow drills, and protect in cold sections by leaves or straw during the winter. Cultivate the same as lettuce, thinning 3 to 4 inches apart. Pkt. 5c, oz. 10c.

SWEET OR SUGAR CORN

If by mail, add 10c, per quart postage.

Every garden should have a small patch of Sweet Corn, and if once used you will never be without it.

Culture—Plant in hills 3 feet apart each way, five to six kernels to every hill, or in drills 3 feet apart each way, and the plants thinned to 1 foot apart in the drill. The latter method will yield the heavier crop from a given surface.

Country Gentleman—The great merit of this corn is its fine quality, being of fine, rich flavor, remarkably rich and tender. Where quality is preferred to size, it has no equal. Ears of fair size, three to five to a stalk, cob small, kernel pure white and long. We cannot speak of it too highly as the Sweet Corn to plant for home use. Ripens about same time as Stowell's Evergreen. Pt. 10c, qt. 20c, pk. \$1.25, bu. \$4.00.

Mammoth Early—This produces the largest ear of any corn we know, a single ear sometimes weighing 2 to 3 pounds. This variety proved very satisfactory to those who planted it last year and we recommend it very highly. Pt. 10c, qt. 20c, pk. \$1.00, bu. \$3.75.

Mammoth Late—Pt. 10c, qt. 20c, pk. \$1.00, bu. \$4.00.

Mammoth White Cory—This new strain is as early as the original Extra Early Cory, with ears of larger size and kernels more compact. Cob and kernel are pure white. Pt. 10c, qt. 20c, pk. \$1.00, bu. \$3.75.

Stowell's Evergreen—The general favorite with market gardeners and canners for late use. Ears large, grains deep, tender and sugary. A strong cropper, remaining in good condition a long time. Pt. 10c, qt. 20c, pk. \$1.00, bu. \$3.75.

Black Mexican—This corn when in condition for the table cooks remarkably white, but the ripe grain is black or bluish black. It is surpassed by none in tenderness. For family use it is considered by many of our customers the most desirable of the second early sorts. Pt. 10c, qt. 20c, pk. \$1.00.

Early Minnesota—An old and popular dwarf variety. One of the best for market and private gardens. Pt. 10c, qt. 20c, pk. \$1.00, bu. \$3.75.

Extra Early Adams—Very early but more of the quality of field than sweet corn. It is, however, the standard extra early variety in the South, and can be depended upon to give a crop when most other sorts fail. Matures in 60 days. Pt. 10c, qt. 20c, pk. 75c, bu. \$2.75.

Early Adams—Similar to Extra Early Adams, but a little later and makes larger ears. Pt. 10c, qt. 20c, pk. 75c, bu. \$2.75.

Lee's Improved Mexican June Corn—White kernel. A field corn which does well for late roasting ears if planted in June or July. (See description under farm seeds, page 18.) Pt. 10c, qt. 15c, pk. 75c, bu. \$2.50.

POP CORN

Rice—A very handsome and prolific variety. Ears short, kernels long, pointed and when popped very white and tender. Pt. 10c, qt. 20c.

FIELD CORN

See Field Seeds, page 18,

CUCUMBERS

One ounce will plant fifty hills. If by mail, add 10c, per pound to pay postage.

Culture—For general crops, sow in the open ground as soon as the weather is settled and warm, and again every two weeks for a succession. Use "Slug Shot" for the bugs.

Early Frame, or Short Green—Fruit medium sized and straight. Popular for table use and for pickling. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 35c, lb. 75c.

Early Green Cluster—Fruits of slim form, desirable for pickling. It is extra prolific, frequently setting in clusters of two or three. These are desirable for small pickles. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 35c, lb. \$1.00.

Green Prolific—A short pickling variety of fine form and flavor. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 35c, lb. 75c.

Everbearing—Valuable for either the table or for pickling. Enormously productive. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 35c, lb. \$1.00.

Improved White Spine—Far ahead of the old White Spine. This strain is much prized by market gardeners. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 35c, lb. 85c.

Improved Long Green—Long and smooth. Abundant bearer; fruit firm and crisp. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 35c, lb. 85c.

Japanese Climbing—Can be grown on trellises, fences, etc. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 50c.

EGG PLANT

One ounce will produce two thousand plants.

Culture—Sow the seed in March or April in a hot-bed. or for family use in a shallow box in a warm window. Transplant in open ground after the weather has become warm.

New York Improved Purple—(Spineless)—The leading market sort, very large and smooth; fine dark color, very prolific and of excellent quality. This strain has given the greatest satisfaction to market gardeners everywhere. Pkt. 5c, oz. 25c.

TRANSPLANTED EGG PLANTS

These plants are grown from seed supplied by us, thus insuring genuineness of all the plants we offer. 25c per doz. Postpaid.

ENDIVE

One ounce will sow 150 feet of drill.

Culture—Sow in shallow drills in April for early use, or for late use in June or July. When two or three inches high transplant into good ground, or thin out to one foot apart.

Large Green Curled—From the density of its foliage this variety is heavier than the Green Curled, but is equally agreeable as a salad, and its appearance, either green or blanched, is particularly handsome. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 40c.

GARLIC

One pound to 10 feet of drill. Bulbs, $\frac{1}{4}$ lb. 10c, 1 lb. 30c. Postpaid 40c.

HERBS

POT, SWEET AND MEDICINAL

Varieties marked with * are perennials.

| | Pkt. | Oz. |
|------------------------------------------------------------------------|------|------|
| Anise —Used for seasoning and garnishing | 5c. | 10c. |
| * Balm —For cooking purposes | 5c. | 25c. |
| Borage —Leaves are used as salad | 5c. | 10c. |
| * Caraway —Seed used medicinally and in bread | 5c. | 10c. |
| Coriander —Seed used in flavoring | 5c. | 10c. |
| Dill —Leaves used with pickles, seeds for flavoring soups, etc. | 5c. | 10c. |
| Majoram, Sweet —Used for seasoning | 5c. | 10c. |
| Saffron —Used in coloring | 5c. | 10c. |
| Sage —Leaves used in stuffing and sauces | 5c. | 10c. |
| Savory, Summer —For seasoning | 5c. | 10c. |
| * Thyme —For seasoning | 5c. | 10c. |

HORSE-RADISH

Pieces of small roots planted in the spring will make fine roots for use by fall. Make a hole with a pointed stick or dibber about 3 inches deeper than the length of the set, drop in the sets and cover. Per doz. 15c, 100, 80c, postpaid.

KOHL-RABI

One ounce will sow 150 feet of drill.

Early White Vienna—Flesh white and tender; the best for forcing for the market. Excellent for table use. Pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 50c.

Early Purple Vienna—Same quality as the above, except in color. Pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 70c.

LEEK

One ounce will sow about 100 feet of drill

American Flag—Large and fine flavored Much grown by gardeners. Pkt. 5c, oz. 10c $\frac{1}{4}$ lb. 30c, lb. \$1.00.

Large Musselburg, or Scotch Champion—Leaves broad and tall, spread like a fan; hardy and of excellent quality. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 30c, lb. \$1.00.

LETTUCE

One ounce will sow about 150 feet of drill. If by mail, add 10 cents per pound to pay postage.

CURLED LEAF VARIETIES

LEE'S MARKET GARDENER: Forcing—Especially adapted to forcing under glass where it stands higher temperature and can be crowded to maturity, also well adapted to out-door growing. The plant is more compact than the Grand Rapids, is lighter colored and less frilled. at the edges of the leaves, which are quite crisp and tender. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 35c, lb. \$1.00.

Black Seeded Simpson—(Curled)—One of the best varieties, either for forcing or sowing out of doors. Plants form a large, loose head of light yellowish green color. It is grown by most every market gardener and should be grown by all who grow lettuce for the market. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c, lb. 75c.

White Seeded Simpson—(Curled)—Forms a compact mass of curly leaves of yellowish green, Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c, lb. 75c.

Grand Rapids—As a lettuce for green-house forcing this variety undoubtedly stands at the head of the list, being of quick growth, little liable to rot, and stands for some days after being fit to cut. Forms a loose head or a cluster of large, light, yellowish leaves, slightly crimped. It will stand shipping long distances better than most sorts. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c, lb. 75c.

HEADING VARIETIES

Fort Smith Head—White Seeded: There has been a growing demand for a compact cabbage-headed lettuce with few outer leaves, suitable for forcing or growing out-of-doors; the Fort Smith Head answers all of these requirements and is especially recommended for use in cold frames and hot houses. The heads are very compact with few outer leaves of bright grayish color, the inner leaves blanching to a rich creamy white; exceedingly crisp and tender. Pkt. 5c oz. 10c $\frac{1}{4}$ lb. 40c Pound \$1.00

Hanson—For out door culture there are none more reliable than this. The heads grow to resemble small cabbages. Outer leaves green, white within, having no bitter taste. Pkt, 5c, oz. 10c, $\frac{1}{4}$ lb. 30c, lb. 80c,

Early Prize Head—This old standard variety is still one of the best of the large, thin leaved, clustering sorts for the home garden, but is not a good kind to ship long distances, as the leaves are so tender that they are easily spoiled in handling. The leaves are very large, crimped, bright green, tinged with brownish red, and are exceedingly tender and crisp, forming a large, loose head, Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 30c, lb. 80c,

May King—A new head lettuce which is becoming quite popular. It is equally good for forcing or early out-door planting. Heads extra large and solid, green outside but heart clear yellow. Recommended as one of the best all-around first early varieties, Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 30c, lb. 80c.

California Cream Butter—A strong growing sort with large green leaves marked with scattered brown dashes. It forms a very solid head of rich cream-colored leaves which are very thick, tender and of a splendid quality. This sort is very hardy and is sometimes called Winter Lettuce, Pkt, 5c, oz. 10c, 1-4 lb. 30c lb. 80c.

Deacon—Forms medium sized head with few outer leaves which are light green, the inner leaves blanch to a white, rich yellow. A very desirable sort for those wishing a compact head or for Market Gardeners for use in cold frames. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 35, lb. \$1.00.

Big Boston—Highly prized by market gardeners. Makes large, solid heads at all seasons, and is crisp and tender in quality. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 30c, lb. 80.

Boston Market—One of the best for forcing under glass as well as for out-door use, forms fair sized heads. Edge of leaves slightly tinged with red. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 30c, lb. 80c.

Denver Market—An early variety, either for forcing or the open ground. It forms large, solid heads of a light green color, and is slow to seed. The leaves are beautifully marked and blistered (like the savoy Cabbage) and are very crisp, tender and of excellent flavor. Pkt. 5c, oz. 10c, 1-4 lb. 30c, lb. 80.

St Lous Head—A large, white, cabbage lettuce that is extremely popular in the South. It is slow to go to seed and wherever tried gives satisfaction, Pkt. 5c. oz. 10c, 1-4 lb. 30c, lb. 80c

Brown Dutch—Leaves large and thick, green tinged with brown; forms large, solid heads, exceedingly hardy. Used in the South as Winter Lettuce. Pkt. 5c, oz. 10 1-4 lb. 30c lb. 80c.

Iceberg—The large, curled leaves that cover the outside of the solid heads are of a bright, light green, with a very slight reddish tinge at the edges. The center is thoroughly blanched. Whether in the early spring or the hottest days of summer, the quality is simply perfect. Pkt. 5c, oz. 10c, 1-4 lb. 30c, lb. 80c,

White Paris Cos—Cos Lettuce differs entirely in shape from the other varieties, the head being of conical form, eight or nine inches high. Outer leaves are yellowish green which blanch better by having the outer leaves drawn about them and tied. Exceedingly crisp and tender. Pkt. 5c, oz. 10c, 1-4 lb. 35, lb. \$1.00

MUSTARD

If by mail, add 10c, per pound to pay postage. One ounce to 80 feet of drill.

Southern Giant Curled—This mustard is highly esteemed in the South, where the seed is sown in the fall and the plants used early in the spring as a salad. Our stock is the true curled leaf. Pkt. 5c, oz. 10c, 1-4 lb. 20c, lb. 50c.

Brown or Black—Desirable for salad or cooking purposes. Oz. 5c, 1-4 lb. 10c, lb. 35c,

New Chinese—This new and highly esteemed variety has gained much popularity by its extra large leaves and hardness, also sweetness. Pkt. 5c, oz. 10c, 1-4 lb. 20c lb. 50c

CANTELOUPE

NOTICE

If Canteloupe Seed is wanted in five, ten, twenty-five or more pounds, special prices will be given.

One ounce for 60 hills. Two to three pounds for an acre. If by mail add 10c per pound to pay postage.

Culture—A light sandy loam, moderately enriched with well-rotted manure, is most suitable. Hills should be 4 to 5 feet apart and from six to twelve seeds should be planted in a hill. Thin out to three or four plants to a hill.

Netted Gem or Rocky Ford—(Flesh Green)—The most popular of small or basket melons and is used almost exclusively by our market gardeners and melon growers. The fruit is very slightly ribbed and densely covered with coarse netting; flesh green, deep, sweet and delicious. The seed we offer is carefully grown and selected at Rocky Ford, Colorado, and in order that our customers may obtain this true stock we will sell this special strain only in sealed packages and guarantee seed to be Rocky Ford grown of the best quality, if the package is unbroken. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 75c.

We Carry a Complete line of Garden Tools

Burrells Gem—An orange fleshed, Rocky Ford basket melon of the finest quality. Fruit oblong averaging six inches long and tapering at the ends. For markets which demand a yellow fleshed melon this is one of the best sorts. The seed we offer is true stock and first quality. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 75c.

Osage, or Millers Cream—The leading yellow fleshed variety. It is large, oval, slightly ribbed and netted; skin very dark green; flesh is deep, rich and highly flavored almost to the rind. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 75c.

Small Green Nutmeg—Fruit of medium size, slightly ribbed, globular. Skin dark green, becoming yellow when over-ripe, and nearly covered with broad, shallow netting. Flesh thick a little coarse, but fine flavor. Pkt. 5c, oz. 10c 1-4 lb. 25c, lb. 75c.

Paul Rose—A valuable melon for shipping in baskets. Fruit about 5 inches in diameter, nearly round. Solid with very small seed cavity. Flesh salmon color and of good quality. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 75c.

Extra Early Hackensack—This sort resembles the large Hackensack in shape but is fully ten days earlier. Has a roundly netted skin and dark, thick flesh of excellent flavor; one of the best market sorts. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 75c.

Banana—Very odd, 18 to 21 inches long and 2 to 4 inches in diameter. Yellow flesh, blending from bright green to rich salmon. One of the most delicious of melons. Pkt. 5c, oz. 20c 1-4 lb. 50c.

WATER MELONS

One ounce to 60 hills; 4 to 5 lbs. in hills to acre. If by mail, add 10c per pound to pay postage. **Notice**—If wanted in 5, 10, 25 or more pound lots special prices will be given.

Water Melon Seed we offer is **Southern Grown**, and our list embraces many varieties of merit.

Watson: This melon was introduced in Georgia three years ago and on account of its fine flavor, general appearance and shipping qualities it has gained great favor with the melon growers of the South. In shape and appearance it somewhat resembles the Halbert's Honey but having a thick rind makes it a good shipper: meat is red and of excellent quality. Pkt. 5c. Oz. 10c. $\frac{1}{4}$ lb. 25c. Lb. 65c, postpaid, 75c

Halbert's Honey—Resembles the Kleckley's Sweet, but more regular in form and appearance. The melons are blunt at both stem and blossom ends. Flesh crimson and very sweet. Not recommended for shipping. Pkt. 5c. Oz. 10c $\frac{1}{4}$ lb. 25c. Lb. 65c. (Postpaid 75c.)

Alabama Sweet—Prized very highly as a shipping melon; first in Texas, but a general favorite wherever grown; of good size but not ungainly like the Triumph. Pkt. 5c. Oz. 10c $\frac{1}{4}$ lb. 25c. Lb. 65c. (Postpaid 75c.)

Bradford—The vines are of a strong and healthy growth and very productive. Medium early. The color is a dark green, striped with a very dark stripe of the same color. The flesh is very tender and sweet, of a fine flavor. The rind is very thin and tough, thereby making it a very desirable shipping melon. This melon is largely grown by market gardeners of the South. Pkt. 5c. Oz. 10c. $\frac{1}{4}$ lb. 25c. Lb. 65c. (Postpaid 75c.)

Kleckley's Sweet or Monte Cristo: Form large oval, skin dark green, flesh scarlet and deliciously sweet, ripening almost clear to the skin. Recommended more for table use than for shipping. pkt. 5c. Oz. 10c. 1-4 lb. 25c Lb. 65c. (Postpaid 75c.)

Florida Favorite—A medium large melon, mottled dark green, rind thin and firm, flesh light crimson and very crisp. In point of sweetness it is one of the best melons we list. Market gardeners will find this a profitable melon to grow. pkt. 5c. Oz. 10c. 1-4 lb. 20c, lb. 65c postpaid 75c.)

Fordhook Early—Earliest of all the large water melons. The rind tough, making it a valuable variety for shipping; outer color medium green; seeds white; flesh bright red and very sweet. We recommend this choice variety.

Georgia Rattlesnake—Fruit large; shape oblong; rind dark green, striped and mottled; flesh red, of fine quality. It stands shipment long distances.

Gray Monarch, or the Long White Icing—The exterior color of this fine melon is a light green though its mottled markings make it appear gray. The flesh is deep red in color, and equal or superior in quality to the old Icing from which it is derived. Specimens weighing from 60 to 70 lbs. have been produced.

The Dixie—A melon highly esteemed in the South. Skin dark green. beautifully striped, deep scarlet flesh, tender and juicy,

Sweetheart—A splendid melon for market purposes, Fruit oval, mottled green; flesh red; tender and sweet,

Cole's Early—This is the best early water-melon for the home market, we know of none better. Extreme earliness is its great merit.

Prices on all varieties of water melons, excepting where otherwise noted, are: Pkt. 5c oz. 10c. 1-4 lb. 20c. Lb. 50c. (Postpaid 60c.)

Plant "Lees Southern Grown Water Melon Seed"

New Triumph--It is a cross between Duke Jones and Kolb's Gem. It has the handsome appearance of the former and the shipping qualities of the Gem. Very early, very prolific, deliciously sweet and of enormous size.

Kolb's Gem--A very popular melon with shippers; vines remarkably vigorous and productive; fruit large, round or oval marked with dark and light green, mottled in stripes; rind exceedingly hard and firm; making it stand shipments better than most sorts.

Pride of Georgia--Rind dark green; nearly oval and rigid; flesh bright scarlet; very crisp and sweet. Grows to a large size and is a fairly good shipper.

Peerless or Ice Cream; An old but popular home melon, of medium size, almost round, skin pale green slightly mottled.

Mountain Sweet--An old standard sort and one of the best for the home garden. Fruit large oval; rind dark green and thin, flesh scarlet, solid to the core and sweet.

**Any Four Ounces
Will Cost You, Postpaid,
25 Cents**

Duke Jones or Jones' Jumbo--The shape is round, color green, with faint lightish stripes deep red meat and sweet; grows very large, weighing in many instances 70 lbs, a good shipper.

Black Diamond--Its color is rich dark green almost black. Shape roundish to blunt oval; vines extremely vigorous, a heavy yielder and preferred by many to the Kolb Gem for shipping.

Dark Icing--Fruit round and of medium size; rind dark green, thin but very strong; flesh deep scarlet, rich, juicy and delicious.

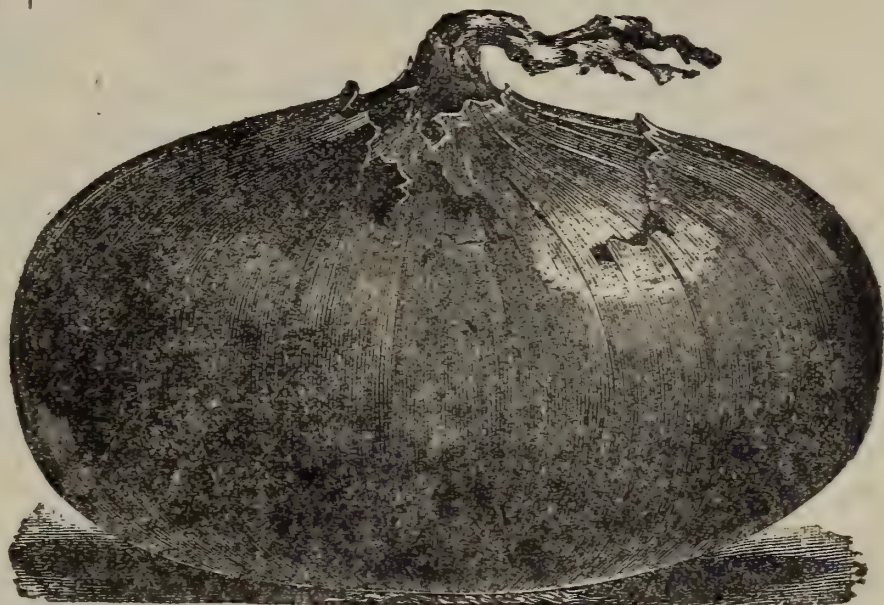

Prices on all varieties of Water Melon, excepting where otherwise noted, are. pkt. 5c. Oz. 10c. 1-4lb. 20c. Lb. 50c. (postpaid 60c.)

Special Discount--Select \$1.30 worth of seed in Packets and Ounces and send us \$1.00 or select \$2.60 worth of seed in packets and ounces and send us \$2.00, we pay postage.

ONION SEED

If by mail add 10c per pound to pay postage. One ounce to 200 feet of drill. Five to 6 pounds required to the acre.

Large Red Wethersfield--This is the standard red variety. It has an attractive appearance. Skin purplish red; form somewhat flattened; flesh purplish white. We recommend this variety as the best red onion for this locality. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 40c, lb. \$1.35.

LARGE RED WETHERSFIELD

Southport Red Globe--A very handsome globe-shaped onion. The skin is the most highly colored of all onions, being a deep, glossy purplish red, and very showy when cleaned for market. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 60, lb. \$1.50.

Yellow Globe Danvers--A most desirable market or table onion. It is a standard variety globe shaped and large in size. Pkt. 5c, oz. 15c $\frac{1}{4}$ lb. 50c, lb. \$1.25.

The Prizetaker Onion--Globe shaped; color clear, bright yellow. It is one of the largest and handsomest varieties grown. Has a small neck; ripens up hard and keeps well until midwinter. Flesh white, thick, mild and agreeable in flavor. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 50c lb. \$1.35.

Australian Brown--Is of medium size, wonderfully hard and solid, and most attractive for market, both as to form and appearance. The color of the skin is a clear amber brown. So widely contrasted from any other onion is this color that it will be noticed on the market. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

SPECIAL OFFER

At the prices named, in quantities of 5 lbs. or over, we will deliver any of above varieties of Onion Seed to your nearest express or freight office. Charges prepaid. We advise early ordering.

Imported White Bermuda—Planted extensively in the South for Shipping. While it is known as White Bermuda, it is really a straw-colored onion. Has remarkable keeping qualities. Pkt. 5c, oz. 25c, $\frac{1}{4}$ lb. 75c, lb. \$2.50.

Imported Red Bermuda—Similar to the White Bermuda Onion. Color pale waxy red. Flesh white, lightly suffused with pink. Pkt. 5c, oz. 25c, $\frac{1}{4}$ lb. 75c, lb. \$2.50.

White Globe—Of mild flavor and fine grain. Handsomest of all white onions. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 60c, lb. \$2.00,

White Portugal, or Silver Skin—A most excellent keeper and good yielder. For family use and sets it is an excellent variety. Pkt. 5c oz. 15c, $\frac{1}{4}$ lb. 60c, lb. \$2.00.

Extra Early White Pearl—Earliest of all, frequently maturing in 70 days from planting of seed. Excellent for market in summer and early fall; not a good keeper. Bulbs are round flattened, pure waxy white skin and very mild. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

OKRA, OR GUMBO

If by mail, add 10c per pound to pay postage. Four ounces of seed to 100 yards of row.

White Velvet—This distinct and beautiful new okra was originated in Georgia. The pods are very large, perfectly smooth, never prickly round, not ridged or square, as in other okras. Oz. 5c, 1-4 lb. 15c lb. 40c.

Manmoth Long Pod—The plant of this variety is very dwarf, but enormously productive. The pods are long slender, deep green and remain tender much longer than most sorts. Oz. 5c. $\frac{1}{4}$ lb. 15c, lb. 40c,

PARSLEY

If by mail, add, 10c per pound to pay postage. One ounce will sow 150 feet of drill.

Champion Moss Curled—Beautifully crimped and curled leaves of deep green color. Extensively used for garnishing. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c lb. 60.

Double Curled—Fine dwarf crimped leaves. Pkt. 5c. oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60.

Triple Curled—Leaves finely cut, very curly and bright green. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60c.

Plain—Leaves plain but somewhat hardier than the curled. Pkt. 5c, Ounce 10c $\frac{1}{4}$ lb. 20c, lb. 60c,

GARDEN PEAS (Crop Short)

One quart will plant about 45 feet of drill. One and one-half bushels are required for an acre in drills.

We sell $\frac{1}{2}$ pecks at peck rates, $\frac{1}{2}$ bushels at bushel rates.

Wrinkled Peas remain longer in season, are of much better flavor and sweeter than the smooth sorts; as in sugar corn, the wrinkled appearance indicates a greater amount of saccharine matter. This (*) denotes wrinkled varieties.

If by mail, add 10c per pint or 15c per quart to pay postage.

EXTRA EARLY VARIETIES

Lee's Extra Early—Eighteen to twenty-four inches. Among the strong claims that can be urged for this pea may be noted the fact that it is the **earliest**, hardiest and most prolific and most profitable of all early sorts. Grows about 2 feet in height, ripens almost all at once; two pickings at most will take the whole crop. Pt. 15c, qt. 25c, pk. \$2.00, bu. \$6.00.

LEE'S EXTRA EARLY

First and Best—Twenty-four to thirty inches. A favorite with market gardeners. Peas of good size and fine quality. Pt. 15c, qt. 25c, pk. \$2.00, bu. \$6.00,

Alaska—Twenty-four inches. A smooth blue pea, which is a desirable sort for market gardeners and canners. Pt. 15c, qt. 25c pk. \$1.75, bu. \$6.00.

If Peas are wanted by mail add 15c per quart to pay Postage.

***Nott's Excelsior**—The very best early dwarf pea in cultivation, all things considered. Very popular now all over the country. Height 15 inches. The pods are well filled and peas very tender and sweet. Pt. 15c, qt. 25c, pk. \$2.00.

***McLean's Little Gem**—An early dwarf, green, wrinkled variety growing about 15 inches high. When green it is very large, sweet and of a delicious flavor. Pt. 15c, qt. 25c, pk. \$2.00.

***American Wonder**—Twelve inches. Deemed the earliest wrinkled pea in cultivation. In flavor, quality and productiveness it has not been surpassed. Pt. 15c, qt. 25c, pk. \$2.00.

SECOND EARLY VARIETIES

***Pride of the Market**—Twenty-four inches. A round, blue pea, with large well-filled pods. Pt. 15c, qt. 25c, pk. \$2.00.

***Champion of England**—Universally admitted to be one of the richest and best flavored peas grown, and very productive. Height 4 to 5 feet. Pt. 15c, qt. 25c, pk. \$1.50, bu. \$5.50.

***Bliss Everbearing**—Eighteen inches. Considered by many the best second early pea. Vine stout, bearing at the top six to ten pods. After once started almost a continuous bearer and one of the very best varieties for the home garden. The peas are large and wrinkled, cook quickly and are of superior flavor. Pt. 15c, qt. 25c, pk. \$2.00.

***Telephone**—Selected stock. Immensely productive. Vines grow 4 feet high. They produce enormously—eight to ten pods to a vine. The pods are very large; so well filled with peas of excellent quality that Telephone has become one of the most prominent late peas to be grown for market. Pt. 15c, qt. 30c, pk. \$2.00.

Black Eyed Marrowfat: An excellent variety, about 5 feet high; pods large, a prolific bearer and can be recommended as one of the very best Marrowfat sorts. Pt. 10c, qt. 20c, pk. \$1.00, bu. \$3.50.

White Marrowfat: One of the oldest varieties in cultivation and a favorite market sort. Pods large, well filled and of excellent quality. Pt. 10c, qt. 20c, pk. \$1.00, bu. \$3.50.

PARSNIPS

If by mail, add 10c per pound to pay postage. One ounce of seed will sow 200 feet of drill.

Hollow Crown, or Long Smooth: Long, sweet and of excellent flavor. Pkt. 5c, oz. 10c, ¼ lb. 20c, lb. 45c.

PEPPER

If by mail, add 10c per pound to pay postage. One ounce of seed will produce 1,500 plants.

Culture: Sow in a hot-bed early in April and transplant to open ground when the weather is favorable.

Large Bell, or Bull Nose: An early variety, of mild flavor; rind thick and fleshy. It is a favorite for use as pickles or in its crude state. Pkt. 5c, oz. 20c, ¼ lb. 50c.

New Chinese Giant Pepper—A fine large and mild pepper, growing to an enormous size. These monstrous peppers are of thick, blocky form and of most brilliant, glossy scarlet. They grow 4 or 5 inches broad at the top and are of equal length. The flesh is usually thick and makes an excellent salad, sliced and served like tomatoes. Pkt. 10c, oz. 25c.

Sweet Mountain or Mammoth—Similar to the Bull Nose, but larger and milder in flavor. Used for stuffed pickles, "Mangoes." Pkt. 5c, oz. 20c, ¼ lb. 50c.

Red Chili—Small, cone shaped, very pungent. Ripe and green pods are used as pickles; also for making pepper sauce. Pkt. 5c, oz. 20c.

Ruby King—The mildest pepper in our list, grows from 4 to 6 inches in length by 3 to 4 inches in diameter. Color bright and ruby red. Good for stuffed pickles. Pkt. 5c, oz. 20c, ¼ lb. 50c.

Long Red Cayenne—A rather late sort, having a long, slim, pointed pod. Extremely strong and pungent. Pkt. 5c, oz. 20c.

TRANSPLANTED PEPPER PLANTS

By mail, per doz. 25c, per 100 \$1.50.

PUMPKIN

If by mail, add 10c per pound to pay postage. One pound to 150 hills; 4 to 6 pounds to an acre.

Japanese Pie—The flesh is a light salmon color, usually fine grained, and when cooked or stewed is almost as dry and mealy as a sweet potato. For making pies, custards, etc. they certainly have no equal. Pkt. 5c, oz. 10c, ¼ lb. 25c.

Mammoth Golden Cushaw—The genuine Cushaw; flesh yellow, fine grained, very sweet and excellent for pies and good for baking. Delicious flavor. Pkt. 5c, Oz. 10c, ¼ lb. 25c.

Striped Cushaw—Pkt. 5c, oz. 10c, ¼ lb. 25c.

Sweet Cheese, or Kentucky Field—Most popular variety in the South. Fruit flattened, diameter being two or three times more than length. Skin mottled, light green and yellow changing to rich cream color as it matures. Flesh tender and of excellent quality. Oz. 5c, ¼ lb. 10c, lb. 35c.

Connecticut or Large Common Yellow Field—A very productive, large yellow variety, and is grown principally for feeding stock. Oz. 5c, ¼ lb. 10c, lb. 35c.

Large Cheese—Flesh yellow, shape flat. Superior to ordinary field pumpkin, being adapted to table use as well as stock feeding. Oz. 5c, ¼ lb. 10c, lb. 35c.

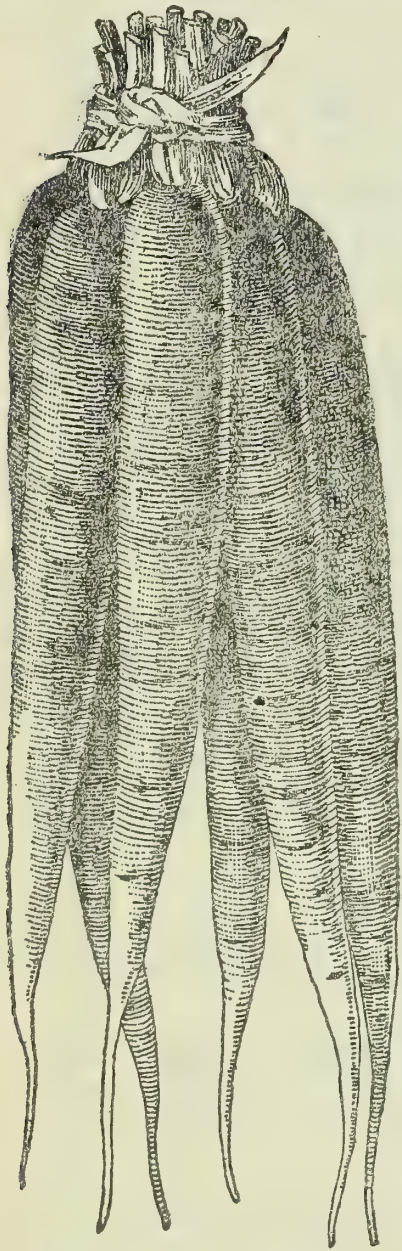

Tennessee Sweet Potato—Medium size, pear shaped, color creamy white. Flesh light colored, fine grained and of superior flavor, and when cooked resembles a sweet potato in appearance and taste. Oz. 10c, ¼ lb. 25c, lb. 75c.

RADISH

If by mail, add 10c per pound to pay postage. One ounce will sow 100 feet of drill.

Lee's Selected Scarlet Globe Radish—For forcing in green-houses, hot-beds, and cold frames and for sowing in private garden this is a perfect sort. It is very early, **can be forced in eighteen days** and will stand a great amount of heat without becoming pithy. Roots round, slightly oval shaped; color rich deep scarlet; flesh white and tender. To the **market gardener** especially do we recommend this most excellent radish. The seed we offer is a specially selected strain grown in France. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c, lb. 75c.

Early Scarlet Turnip, White Tipped—Very early. Shaped perfectly globular; rich, deep scarlet top, blending into pure white at the bottom; exceedingly tender, crisp and delicious, never becoming hollow or pithy. Very desirable for forcing being fit to pull in three weeks. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 50c.

LONG SCARLET SHORT TOP

Long Scarlet Short Top—A very old and standard sort for outdoor culture in private gardens, and for market. Roots 6 to 9 inches in length, straight and smooth. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 50c.

Early White Turnip—In form like the Early Scarlet Turnip; color white; excellent flavor. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 50c.

Early Scarlet Turnip—A small, round turnip shaped radish, with small top and of very quick growth; mild and crisp when young. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 50c.

French Breakfast—Olive shaped; scarlet, with white tip; fine and tender. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 50c.

Bright Long Scarlet or Cardinal—Fine French variety is of strikingly beautiful appearance, and color vivid scarlet tipped with white, and for so long a radish is very early, being ready for use in 25 days after sowing the seed. Excellent for the home garden, and especially desirable for market. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 50c.

Half Long Deep Scarlet: The roots are very deep, rich red color, the flesh very crisp and tender. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, pound 50c.

Chartier: A beautiful long radish, of a deep crimson color, shading to white at the tip. Pkt. 5c, oz. 10c, 1-4 lb. 20c, lb. 50c.

White Strasburg: The most popular summer radish grown. Of handsome oblong shape, tapering to a point. Both skin and flesh are pure white, almost transparent; tender and of a delightful pungent taste. It can be pulled five weeks from time of sowing the seed; yet will continue to grow without losing its fine qualities. Pkt. 5c, oz. 10c, 1-4 lb. 20c, lb. 50c.

Cincinnati Market: Very similar to Long Scarlet Short Top but deeper red in color and slightly larger in size. A good shipper. Pkt. 5c, oz. 10c, 1-4 lb. 20c, lb. 50c.

Long White Vienna or Lady Finger: Skin and flesh pure white, flavor mild, sweet, crisp brittle, of quick growth. Pkt. 5c, oz. 10c, 1-4 lb. 20c, lb. 50c.

New Icicle: Long, slender and pure white almost transparent. This radish has no skin whatever. In the open ground the roots continue brittle, crisp and mild until they are 6 inches long and 1 inch in diameter. While this is a new radish it is popular among our customers and worthy of a trial. Pkt. 5c, oz. 10c, 1-4 lb. 20c, lb. 50c.

California Mammoth White; Pure white about one foot long and two or three inches through, flesh tender and crisp, keeping well through the winter. Pkt. 5c, oz. 10c, 1-4 lb. 20c, pound 50c.

WINTER VARIETIES

Rose China Winter: One of the best fall and winter varieties. Color bright rose, white flesh and of superior quality. Pkt. 5c, oz. 10c, 1-4 lb. 20c, lb. 50c.

Long Black Spanish: One of the latest and hardiest of the radishes. Roots oblong, black, large and firm. An excellent winter variety. Pkt. 5c, oz. 10c, 1-4 lb. 20c, lb. 50c.

Round Black Spanish: Pkt. 5c, oz. 10c, 1-4 lb. 20c, lb. 50c.

Not all our Seeds are Northern Grown, but all that should be are.

RHUBARB OR PIE PLANT

Victoria Giant: This is a very large and late green variety, with round stalk of great length and thickness; produces a succession of stalks the whole season. Held in high esteem by market gardeners. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 60c.

Rhubarb Roots: "Victoria Giant". Fine large clumps. Each 10c, doz. \$1.00, prepaid \$1.25.

OUR RADISH SEED ARE THE VERY FINEST FRENCH GROWN STOCK

SQUASH

One ounce for 50 hills, 4 or 5 pounds to an acre. If by mail, add 10c per pound to pay postage.

Culture; The general principles of culture are the same as those given for cucumbers and melons, but the plants are less particular as to soil.

White Bush Scallop: The well known white Patty Pan, Pkt. 5c, oz. 10c, 1-4lb. 20c, lb. 50c.

Yellow Bush Scallop: Orange yellow. Pkt. 5c, oz. 10c, 1-4lb. 20c, lb. 50c.

Mammoth White Bush Scallop: The fruit is a beautiful clear, waxy-white instead of the yellowish-white so often seen in the old White Bush Scallop and is superior to that variety in size and beauty. We recommend it. Pkt. 5c, oz. 10c, 1-4 lb. 20c, lb. 50c.

Summer Crookneck (Yellow): The old standard sort; very early and productive. Fruit about 1 foot long, with crooked neck and covered with warty excrescences; color bright yellow, shell very hard when ripe. Pkt. 5c, oz. 10c, 1-4 lb. 20c, lb. 50c.

Summer Crookneck (White): The fruit is similar in size and shape to the Yellow Crookneck, but of beautiful ivory white color and fine quality. Pkt. 5c, oz. 10c, 1-4 lb. 20c, lb. 50c.

Hubbard: One of the best of the Winter squashes: flesh bright orange-yellow, fine grained, very dry and sweet. Considered by many as good baked as a sweet potato. Pkt. 5c, oz. 10c, 1-4lb. 25c, Lb. 75c.

TRUCKERS AND MARKET GARDENERS

Wishing to buy seed in quantity will please mail us a list of your probable wants, so that we can quote you special prices.

SPINACH

If by mail, add 10c per pound to pay postage. One ounce will sow 100 feet of drill; 15 pounds are required for an acre.

Round or Summer: The popular summer variety. Oz. 5c, 1-4 lb. 15c, lb. 30c.

Savoy Leaved Bloomsdale: Very popular with market gardeners. Leaves large, thick, curled like Savoy cabbage. Very heavy cropper, suitable for fall sowing. Oz. 5c, 1-4 lb. 10c, lb. 30c.

Victoria: Very quick to mature. Has large, exceeding thick, dark, black-green leaves, curled in the center. Especially recommended for spring rather than fall planting. Oz. 5c, 1-4 lb. 10c, lb. 30c.

TOBACCO

If by mail, add 10c per pound to pay postage.

Connecticut Seed Leaf: This variety is a staple crop. Pkt. 5c, oz. 20c.

Sweet Oronoco: Used for first-class plug fillers and makes, when sun cured, the best natural chewing leaf. A favorite for the "Homespun" wherever known. Known as Little Oronoco in some localities. Pkt. 5c, oz. 20c.

Special Discount: Select \$1.30 worth of seed in packets and ounces and send us \$1.00, or select \$2.60 worth of seed in packets and ounces and send us \$2.00. We pay postage.

TOMATO

If by mail, add 10c per pound to pay postage. One ounce will produce about 1,300 plants.

Culture—Sow seeds in January or early February, in hot beds or in pots or boxes in the house.

Lee's Market Gardener—(Color Purple)—We believe this to be the best early tomato we have ever offered. It is earlier in maturing than the Beauty, the fruits produced average more nearly globe shaped, are heavier, equally as firm smooth and suitable for shipping. The fruits are of good size throughout the season which is unusual in so early a variety. We recommend this as the best Tomato of its class. Pkt. 10c, Oz. 50c.

LEE'S MARKET GARDENER

Livingstons Beauty—Without doubt the most widely known and popular of all purple fruited varieties. A decided favorite for home market a strong grower, productive, large, and always smooth, of perfect shape and excellent quality. Seldom rots or cracks after rain. For shipping and early market it cannot be excelled. Pkt. 5c, oz. 20c, 1-4 lb. 60c, lb. \$1.75.

We carry a stock of Tomato Seed especially adapted for the use of **market gardeners** and **canners**, which we believe to be equal in every respect to any seed that can be produced at any cost.

Acme—(Livingston's)—Color purple. The earliest tomato grown, and used exclusively by the market gardeners for early shipments. Smooth, solid and makes a perfect shipper. Ripens all over and through at the same time and bears until frost. Extensively used for canning. Pkt. 5c, oz. 20c, 1-4 lb. 60c, lb. \$1.75

Stone—(Livingston's)—**The greatest canning tomato in the world.** This variety has obtained immense popularity with canners, Southern growers and market gardeners. One of the extra large fruited sorts, solid and firm fleshed as its name indicates. Smooth, ripening to the stem without a crack; color bright scarlet; fine for canning; quality the very best. Pkt. 5c, oz. 20c 1-4 lb. 60c, lb. \$1.75.

Livingstons Globe—A new and distinct variety, color fine glossy rose tinged with purple. Among the first to ripen, very smooth firm fleshed with few seeds. On account of its globular shape it permits a greater number of slices being taken than with the flat sorts, making it a desirable sort for hotels and restaurants. Pkt 10c oz. 30c, 1-4 lb. \$1.00.

Ponderosa—If you have never grown this tomato in your garden, and appreciate a tomato where one slice will completely fill the bottom of your plate, try the Ponderosa. It is the largest tomato we know, handsome smooth appearance, dark, rich crimson, delicious sub-acid flavor; meat almost solid. Pkt. 5c, oz. 25c.

Golden Queen—The best of the large, yellow sorts: bright lemon color. Ripens evenly and is desirable for private use, forming a pretty contrast with the red sorts. Pkt. 5c, oz. 20c, 1-4 lb. 75c.

Dwarf Stone—(Livingston's)—In habit of vine resembles the Dwarf Champion, but is of stronger growth and more erect. Fruit resembles Livingston's Stone, and almost as large. Color bright red. Pkt. 5c, oz. 20c, 1-4 lb. 75c.

Dwarf Champion, or Tree—A purple fruited variety which has become very popular for the reason that it will stand erect without stakes. Fruit smooth, good size, has no hard core and of excellent flavor. Stands the heat better than most sorts. Pkt. 5c, oz. 10c, 1-4 lb. 50c,

Perfection—An improved Acme, with **blood red skin**, making it a valuable canning sort. Pkt. 5c, oz. 15c, 1-4 lb. 50c, lb. \$1.25.

Small Fruited Tomatoes—Excellent for preserves and pickles. Yellow Plum or Pear. Pkt. 5c.

TRANSPLANTED TOMATO PLANTS

These plants are grown from seed supplied by us, thus insuring genuineness of all the plants we offer. Write for special quotations on larger quantities. 15c per doz., 80c per 100, by express not prepaid. Special prices in lots of 1,000 or over.

TURNIP

One ounce for 150 feet of drill; 1 to 2 pounds. in drills per acre.

If by mail, add 10c per pound to pay postage. Special prices on 5 and 10 pound lots.

Extra Early Purple Top Milan: Similar to the White Milan, except that the roots are a little flatter and a beautiful purple-red on the upper portion. All in all, these Milan turnips leave nothing more to be desired in the way of an extra early garden turnip. Oz. 5c, 1-4 lb. 20c, lb. 60c.

Early Purple Top, Strap Leaved: This is an early variety and a great favorite for table use; form flat like a broad disk in shape, and of medium size; color purple, or dark red above ground, white below; flesh white, fine grained and tender; leaves few, entire upright in growth. Oz. 5c, 1-4 lb. 15c, lb. 35c.

Purple Top White Globe: A variety which originated from the purple top flat turnip. It is globular, of beautiful appearance, of most excellent quality and equally desirable for table or stock. It keeps well and is a fine market sort. Oz. 5c, 1-4 lb. 15c, lb. 35c.

Pomeranian White Globe: This is one of the most productive kinds, and in good rich soil roots will frequently grow to 12 pounds in weight. Oz. 5c, 1-4 lb. 15c, lb. 35c.

Cow Horn: Grows partly above ground in carrot form and slightly crooked, very productive, flesh white, fine grained and sweet. Oz. 5c 1-4 lb. 15c, lb. 35c.

White Egg: A quick growing, egg shaped perfectly smooth, pure white variety, growing half out of the ground, with small top and tough leaves. The flesh is very sweet, firm and mild, never having the rank, strong taste of some white varieties. Oz. 5c, 1-4 lb. 15c, lb. 35c.

Early White Flat Dutch (Strap Leaved): A most excellent early garden variety and largely used in the Southern States. Roots medium sized, flat; color white, very early, sweet and tender. Oz. 5c, 1-4 lb. 15c, lb. 35c.

Seven Top, or Winter Greens: Cultivated extensively in the South for the tops, which are used for greens. It is very hardy and will grow all winter, but does not produce a good root, and is only recommended for the tops. Oz. 5c, 1-4 lb. 15c, lb. 35c.

RUTA BAGA, OR SWEDES

Skirving's Purple Top: Flesh yellow, solid and sweet; a good keeper. Oz. 5c, 1-4 lb. 15c, lb. 35c.

Fertilizers and Insect Destroyers

FOR FARM, GARDEN AND FLOWER BEDS

INSECT DESTROYERS

Paris Green—A poisonous powder which prevents the ravages of potato and other bugs. Use dry or in solution. When applied in dry form, dust on the plants when the dew is on the leaves. When

applied in liquid form use $\frac{1}{2}$ to 2 lbs. to 40 gallons of water. Lb. 35c, 10 lbs. \$3.00. Subject to market changes. Write for special quotations.

Grape Dust—(Hammond's)—A preparation to kill mildew on grape vines or other plants or trees affected by mold, mildew or rust mites, and for any use where a fumigator or antiseptic is required, either in greenhouses or in open air. The application is made by dusting the diseased portions. Five pound package 40c.

Slug Shot—

Hammond's. One the cheapest and most popular insecticides. It kills Potato Bugs, Gooseberry and Cabbage Worms, Melon Squash, and Cucumber Bugs, in fact every pest known to the garden in the way of an insect. Con-

tains nothing in the least injurious, and is not poisonous to man or beast. Lb. 10c, (postpaid 20c,) 5 lbs. 35c, 10 lbs. 60c, 100 lbs. \$5.50.

FERTILIZERS

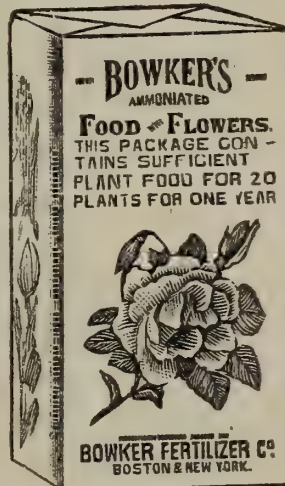

For Farm, Garden and Flower Beds.

Bone Meal—Guaranteed pure bone. It is ground fine and is an excellent top dressing for lawns, grass lands, farm and field crops, also for mixing with potting soil. 5 lbs. 25c, 10lbs. 40c, 25 lbs. 75c, 100 lbs. \$2.50. Special prices in larger quantities.

Lawn Fertilizer—Is a preparation in which the enriching qualities of stable manure are found without any objectionable features. Stable dressing is unpleasant to handle and contains more or less weed seeds. Should be applied as a top dressing, either in spring or fall. Ten pounds will fertilize 400 square feet. 5 lbs. 25c, 10 lbs. 40c, 25 lbs. \$1.00, 100 lbs. \$2.25.

Garden Vegetable Fertilizer—The effects of this fertilizer, when applied to vegetables brings them into marketable condition from 10 to 14 days earlier and increases production one-third to one-half. Excellent for potatoes. Apply 300 to 400 pounds per acre. 50 lbs. \$1.25, 100 lbs. \$2.00. Special prices in large quantities.

Sheep Fertilizer—Excellent top dressing for lawns: its effect is immediate and lasting. Apply 100 pounds to 25x100 feet. For potplants mix one quart fertilizer to six quarts of soil; for the vegetable garden spread over the surface 500 lbs. to the acre and dug in, it promotes speedy growth and early maturity. 10 lbs. 30c, 25 lbs. 75c, 50 lbs. \$1.25, 100 lbs. \$2.00.

BOWKER'S PLANT FOOD

Recommended for house plants, ferns, etc.

Package containing sufficient Plant Food for thirty house plants for three months Each 15c (postpaid 20c).

Package containing sufficient Plant Food for thirty house plants one year, 25c (postpaid 30c).

COMMERCIAL FERTILIZERS FOR FARMERS, FRUIT GROWERS AND TRUCKERS

We are agents for **Swift's Fertilizers**, and the great results obtained from their use on Potatoes, Corn and Cotton, and by the Truck growers, make these fertilizers almost indispensable by the progressive growers. We shall be glad to furnish upon application valuable booklets on fertilizer and quote our best prices in carload lots or less. We recommend **Swift's Champion Vegetable Grower** and **Swift's Superphosphate**.

SELECTED FIELD SEED CORN

Knowing the importance of supplying the best in this line, we are pleased to offer the highest grade of hand-picked **Northern Grown Seed Corn** that it is possible for us to obtain. Any of the varieties we offer are worthy of a trial. Samples mailed on request.

Wisconsin White Dent—First introduced by us three years ago. It is 16 to 20 rowed, deep grained, medium sized ear, with a small cob. Will withstand a great amount of dry weather and make a crop when most other varieties fail. Pk. 50c, bu. \$1.50. Bags extra, 20c, each.

White Wonder—We offered this corn for the first time, three years ago: our sales last year reached several carloads and we do not hesitate in recommending it as one of the very best varieties of corn for the West and Southwest. It was originated in Oklahoma on the 101 Ranch, on which is planted annually about 5000 acres of this variety. The seed we offer is obtained direct from the originators under special contract. Mr. Miller, superintendent of the 101 Ranch, says: "After trying many varieties of corn we have found that the White Wonder gives the best satisfaction in yield and quality. It ripens at the same time as the earliest varieties, and is the only large eared corn that we know of that does ripen so soon. Being a luxuriant and rapid grower, it shades the ground early in the season, thus conserving the moisture and enabling the corn to withstand the drought." Pk. 50c, bu. \$1.75. Bags extra, 20c each.

Indian Chief, or Bloody Butcher—This is a most beautiful large grained red corn. A very heavy yielder. Pk. 50c, bu. \$1.75. Bags extra, 20c each.

Lee's Improved Mexican June Corn—(White Kernel)—A strictly dry weather corn, which should be planted about June 10th to July 10th. Too early planting is not recommended, as it has a tendency to grow too rank. Do not be afraid of its getting too dry to plant Mexican June Corn, as the dryer the weather the more favorable it is for a sure crop, as it will mature without any rain whatever. Mexican June Corn has passed the experimental stage, and for late planting has no equal. The stock we offer has been grown under contract for us and we know it to be genuine. Pk. 75c, bu. \$2.50. Bags extra, 20c each.

Lee's Improved Mexican June Corn—(Blue Kernel)—Habit and growth same as above, but the kernels are white and blue mixed. Pk. 75c, bu. \$2.50. Bags extra, 20c each.

Shoe Peg—A long deep grained corn with a very small cob. Will shell out 60 to 65 lbs. of shelled corn to 70 lbs. of ear corn. Pk. 50c, bu. \$1.75. Bags extra, 20c each.

Iowa Silver Mine—The ears are very uniform in size and shape with sixteen to twenty straight rows of deep, pure white kernels on a small cob, maturing in about 90 days. This corn has had not only the largest sale, but has been grown more generally in the corn producing states as a main cropper than any other variety yet introduced. Being early as well as a large yielder, it has given our customers excellent results. Pk. 50c, bu. \$1.50. Bags extra, 20c each.

Champion White Pearl—Ninety days. The banner corn for Arkansas. The ears are 7 to 12 inches long, averaging 16 rows of extra long and wide grains. The stalk is short and thick and will not blow down as readily as most kinds. It withstands the drouth almost equal to the Mexican June, and is altogether the best corn for late planting that we list, and is being planted very largely by some of our corn growers with great satisfaction. Pk. 50c, bu. \$1.50. Bags extra, 20c each.

ST. CHARLES WHITE: An old, well known red cob variety. Peck 50c bushel \$1.50; bags extra 20 cents each.

Hickory King—It is entirely distinct from all varieties, having the largest grain with the smallest cob ever introduced. A single grain will completely cover the cob section of an ear broken in half. Yields splendid crops on light soils and will stand lots of hot weather. Pk. 50c, bu. \$1.75. Bags extra, 20c each.

Legal Tender—Ninety days. Pure yellow color, enormous, large, long ears, with deep grains on a very small cob. This corn was first introduced by us four years ago and from data which we have gathered from our customers who have grown it, we find it to be the largest producing yellow corn ever to our knowledge introduced in the South. If you want to fill your cribs plant Legal Tender. Pk. 50c, bu. \$1.50. Bags extra, 20c each.

Golden Beauty—This is a variety of vigorous growth, attaining from 8 to 10 feet in height, nearly every stalk producing two ears, which are large, of perfect shape, containing sixteen rows, and filling out well to the end of the cob. It matures as early as most varieties of Golden Dent, has a small cob, is easily shelled, and surpasses all others in size, appearance and productiveness. Pk. 50c, bu. \$1.50. Bags extra, 20c each.

Iowa Gold Mine—Early; 90 to 100 days. Ears are of good size; color bright golden yellow, grain very deep, cob small; very heavy yielder. This variety is in demand. Pk. 50c bu. \$1.50. Bags extra, 20c each.

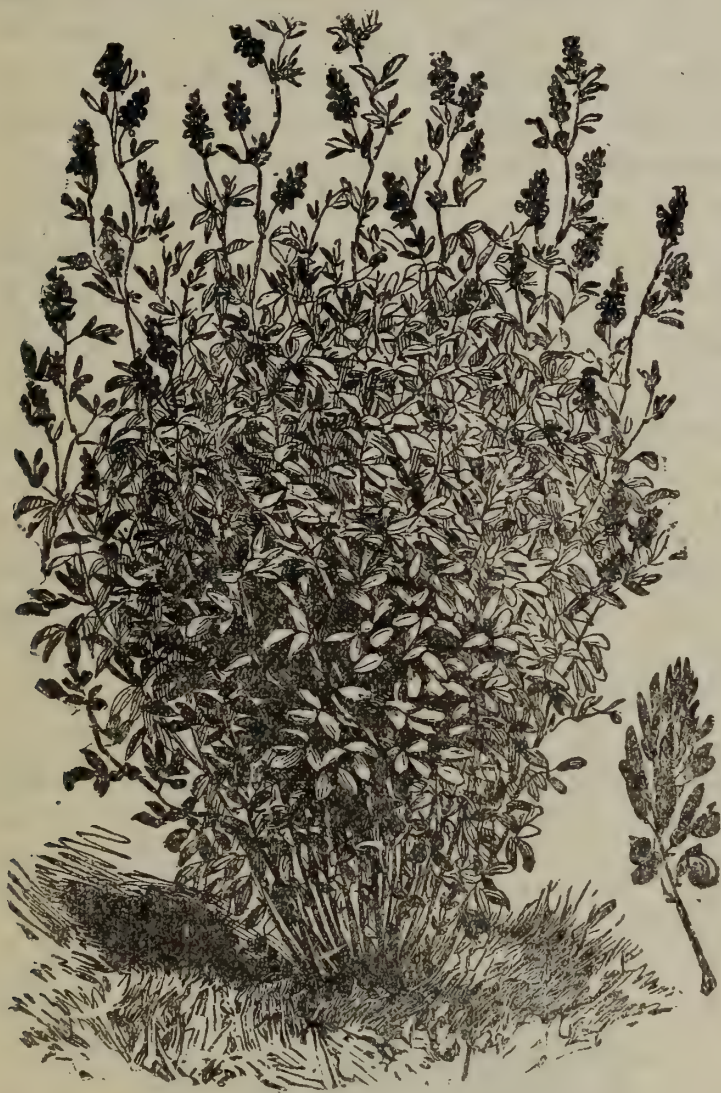

Recleaned Grass and Clover Seed

Quotations on Grass Seed subject to market changes

Special prices given on application, and we earnestly solicit those contemplating the sowing of a quantity of Grass Seed to submit us a memorandum of your wants, that we may quote our very lowest market prices. Prices are based on customers paying express and freight charges. We deliver all goods f.o.b. cars this city. Seamless grain bags charged at 20c each

CLOVER SEED

Alfalfa, or Lucerne, the Great Four Crop Clover—The value of this clover is now so well and generally known as to require no comment

ALFALFA CLOVER

on it. Each year brings it more in favor, and it is acknowledged to be the best clover now in cultivation. It does best on rich sandy loam with a deep sub-soil. Prepare the land thoroughly before planting. Seed can be sown either in fall or spring. We carry a large stock of recleaned seed and shall be glad to make special quotations, with samples, at any time. Sow 15 to 20 pounds per acre. Per lb. 20c (postpaid 30c), Write for prices in quantity.

Medium Red or June—The common clover in general cultivation. Grows 2 to 3 feet high; sow 8 to 10 pounds to the acre. Per lb. 20c, not postpaid. Write for prices in quantity.

Mammoth, or Sapling Clover—It is used mostly to plow under for fertilizing. Sow 8 to 10 pounds per acre. Lb. 25c, not prepaid. Write for prices in quantity.

White Dutch Clover—Usually sown for cow and sheep pasture; also good for lawns. Sow 5 to 6 pounds per acre. Lb. 30c, 10 lbs \$2.50

Alsike, or Swedish—Sow 6 pounds per acre. We wish to call our farmers' special attention to this clover, which is in many respects superior to the common red clover. It is hardy; resists the extremes of drought and wet and yields large crops of superior pasturage and good hay. Expressly suited for sowing on low wet lands, or lands liable to wash. Lb. 20c, not prepaid. Write for prices in quantity.

Crimson Clover (*Trifolium Incarnatum*)—Is an annual clover. Sow in first part of August, 15 pounds to the acre. Lb. 20c, not prepaid. Write for prices in quantity

Japan Clover—Highly recommended in the Southern states for pasture and especially adapted to old worn-out soils and neglected fields. It affords excellent pasture from spring until fall, and will be found valuable in many situations, although we do not recommend it for land which will produce better grasses. Sow in March or April. 10 lbs. per acre. Per lb. (postpaid) 50c, 10 lbs. \$3.00 (not prepaid). Special prices in larger quantities.

Burr Clover—A most valuable winter grazing crop, growing luxuriantly all through the winter and until summer comes fully on. After once being seeded it reseeds itself. Makes a good combination with Bermuda grass. Owing to the exceeding short crops we are unable at this time to quote prices. Will do so on request.

Bokhara, or Sweet Clover—Especially adapted to dry lands where other clovers do not seem to make satisfactory growth. Resembles Alfalfa, but grows more rapidly and makes a larger stalk. Can be cut repeatedly if rains are plentiful. Sow in fall or spring, either separately or with other grains. Lb. 30c, 10 lbs. \$2.50. Lower prices in quantities.

GRASS SEED

Prices Subject to Market Changes.

Timothy (Herd's Grass, Cat Tail, Phecum, Pratense)—Starts late and grows rather slowly flowering about four weeks after red clover. It makes good hay even if cut a few days after flowering, but will never bear close feeding to horses or sheep; 45 lbs. to the bushel. Sow 12 lbs. to the acre. Market price; write for quotations.

Orchard Grass—This is one of the most valuable and widely grown of all the pasture grasses. Its good properties are: **Earliness, rapid growth and power to resist drought.** It will endure considerable shade. For hay, cut in flower or soon after Sow 24 lbs. to the acre. Lb. 25c, 10 lbs. \$2 00, 100 lbs. \$18 00.

Red Top (Solid Seed)—This seed is free from chaff, and 1 lb. of it is equivalent to 5 lbs. of the chaff. We recommend this solid seed as more satisfactory than the chaff. Very fine for lawns. Sow 8 lbs. to the acre. Lb. 20c, 100 lbs \$15.00.

Perennial Rye Grass (Lolium Parenne)—Nutritious and valuable; in most places not excelled by Blue Grass for pasture. It thrives on almost all cultivated soils; starts early and grows all summer; height seldom over 18 inches. Flowers in June; 24 lbs. to the bushel, Sow 35 lbs. to the acre. Lb. 15c, 10 lbs. \$1.00, 100 lbs. \$9.00

Italian Rye Grass—Very much of the same nature as Perennial Rye Grass, but produces somewhat finer quality of grass and hay, Can be cut twice the first year. Sow 35 lbs. to the acre. Lb. 15c, 10 lbs. \$1.00, 100 lbs. \$9.00.

Meadow Fescue (English Blue Grass)—An excellent pasture grass: early, nutritious and thrives well on all good soils; the long tender leaves are relished much by cattle. In addition to its being pasture grass it makes a very good quality of hay. Flowers in June and July. Sow 35 lbs. to the acre. Lb. 20c 10 lbs. \$1.00 100 lbs. \$9.00.

Kentucky Blue Grass (June Grass, Spear Grass, Green Meadow Grass, Poa Pratensis)—Very valuable pasture grass and for lawns when mixed with other grasses. It grows well in rather a dry soil, but will grow in a variety of soils, from the driest knolls to a wet meadow. It endures the frosts of winter better than many other grasses. Sow about 28 lbs. to the acre early in the spring or during October or November. Lb. 25c. 5 lbs. \$1.00, 100 lbs. \$16.00.

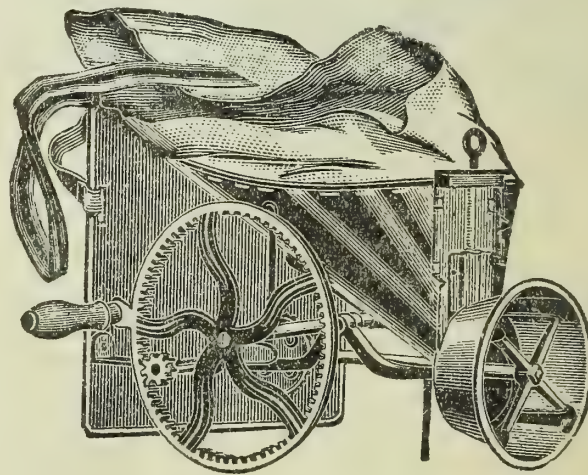

Canadian Blue Grass—A hardy perennial Much of the same nature as Kentucky Blue Grass, but being grown in the high latitude of Canada is considered more hardy. Is valuable for either lawn or pasture purposes. Very deep green in color. Fourteen pounds to the bu. Lb. 20c., 6 lbs. \$1.00; 100 lbs. \$10.00.

Tall Meadow Oat Grass—For either hay or a permanent pasture a most valuable grass, which can be successfully grown in all parts of the country. Grows tall and therefore desirable for meadows. Does not winter-kill. Per lb. 25c, 10 lbs. \$2.00. Write for prices in larger quantities.

Bermuda Grass—This grass is especially adapted to our climate and is becoming more and more in favor each year for use in lawns and for pastures. It is very valuable for its drought-resisting properties. We import this seed in large quantities, and can offer special inducements to those who buy in quantity. Sow 3 to 5 lbs. per acre. Lb. 65c postpaid 75c 10 lb. lots and over 60c. per lb.

Permanent Pasture Mixture (for lowland)—A mixture of the best of those varieties of grasses naturally adapted to wet or low lands. Lb. 25c. 10 lbs. \$2.00, 100 lbs. \$17.50.

Owing to the market changes on Grass Seed we can not make firm prices on large quantities at this time and therefore ask those contemplating sowing a quantity of Grass Seed to send us a list of your wants and we will make you special prices and mail samples.

Cahoon Seed Sower

Sows Grass Seeds, Wheat, Oats, Barley, Rye, Buckwheat, etc. A saving of four fifths of the labor and one-third of the seed used in hand sowing, is effected by this machine.

Every farmer should have one.

Each \$3.00

MISCELLANEOUS SEEDS

Owing to the fact that our catalogue goes to press at an early date we cannot make prices on many varieties of Field Seeds, but will do so on receipt of your requirements.

Tennessee Golden German Millet—This is the tall-growing, large-headed variety which has come into such general favor with our customers the past number of years. It is superior in every way, especially in yield, to the "Common Millet" generally used in the West. We give special attention to the quality of this millet and we wish to warn our customers against competitors who offer "German Millet" at less price, who claim it "just as good" as ours. Sow 1 bushel to the acre. Market Prices.

Common Millet—Height 2 to 3 feet. Under favorable conditions it yields a good crop of hay, but for the additional cost we recommend our customers to use our Tennessee Golden German Millet, which is the large-headed variety. Sow 1 bushel to the acre. Market price.

Early Orange Sugar Cane—Best for sorghum, but is somewhat later than the Amber. Sow 1 bushel to the acre. Market Price.

Early Amber Sugar Cane—We recommend to the farmers, and especially dairymen, the use of cane seed. It can be profitably grown everywhere. Will grow through the most severe and prolonged droughts, 1 bushel to the acre. Market prices.

Texas Seeded Ribbon Cane—This variety closely resembles the genuine Ribbon Cane as raised from cuttings. Customers who purchased seeds of us this season report yield running from 400 to 600 gallons per acre. It is a very tall grower, the stalks ranging from 12 to 15 feet; the stalks are also very large, which accounts for the enormous yield. The quality of syrup is superior to the best Sorghum. It matures from August 20th to September 1st, or nearly two months earlier than Ribbon Cane. Per lb. 10c (Postpaid 20c) 3 lb. 25c, 10 lbs. 75c not prepaid.

Tennessee Silver Drip—A variety of cane grown for many years in Tennessee. Produces clear light colored sorghum of superior quality. Per lb. 10c (Postpaid 25c) 3 lbs. 25c, 10 lbs. 75c, not prepaid.

White Kaffir Corn—For the grain, sow in rows 3 feet apart, 3 to 5 pounds of seed to the acre. For fodder sow one-half to 1 bushel, either broadcast or in drill. Market price.

Red Kaffir Corn—Market Price.

VETCH

Vetch—should be sown from July to November or from February to May, broadcast at the rate of 30 to 40 lbs. to the acre. It produces a pea-like vine which makes excellent hay of the richest quality. It is usually mixed with Wheat, Oats or Rye cut when the heads of the grain crop, with which it is sown, begin to head.

Per lb. 10c (postpaid 20c.) per 100 lbs. \$8.50 Market prices on large quantities.

Milo Maize—A non-saccharine sorghum of high value, cultivated like corn. A sure dry-weather crop, stalks grow from five to seven feet high with many juicy leaves and splendid heads. It will mature its main head in 100 days and will continue growing until frost. Sow four to five pounds to the acre. Market price.

Winter Turf Oats: The value of these oats cannot be overestimated; they make a fine turf and will afford a pasture all winter and produce 40 to 50 bushels of oats per acre. We have seen oats grown in this locality the past year which weighed 40 pounds to a measured bushel. Winter Turf Oats have passed the experimental stage and should be grown by all progressive farmers. Can be planted from September to November at the rate of 1 bushel to the acre. Write for special quotations. Market prices

Genuine Red Rust-Proof Oats: These are the best oats for spring planting; are entirely rust-proof and under ordinary conditions produce a good yield. We offer extra heavy re-cleaned oats. Write for special prices. Market price.

Buckwheat, Silver Hull: An improved variety in much demand. Grain is light gray in color. Recommended for bees. Sow from 3 pecks to 1 bushel per acre. Pk. 50c, bu. \$1.50.

Buckwheat, Japanese: Grain is dark brown and very large. Sow from 3 pecks to 1 bushel per acre. Pk. 50c, bu. \$1.50.

MISCELLANEOUS SEEDS CONTINUED

Dwarf Essex Rape--Much of the nature of kale but grows much larger is excellent for fattening sheep and swine. Its value as a sheep pasture has been demonstrated in every state of the Union, and it is recommended by authorities everywhere as of superior value for hogs and sheep. Rape grows on any kind of soil, and has strong growing roots, which penetrate the ground for a considerable depth. On account of its quick growth, splendid feeding qualities, it should be largely used, and considering the small expense of seeding and its satisfactory yield, there is no farmer who should be without it. Sow broadcast in the spring at the rate of 6 to 8 pounds to the acre. Rape produces 25 to 30 tons of green forage to the acre. per lb. 15c (postpaid 25c.) 5 lbs. 70c, 10 lbs. and over 9c per lb. Special prices on larger quantities.

Barley--Recommended and used very extensively for winter pasture. It is quick growing, and while it is not as hardy as rye it will endure a considerable amount of cold weather. It makes fine pasture. Sow 1 bushel per acre. Market price.

Speltz or Emmer--A valuable new grain growing much like Rye or Barley. Recommended as better for stock and grows much larger crop than either Oats, Barley or Rye. Tough and hardy it stands the drought better than any other grain. Prepare your land as you would for wheat or oats, and sow early in spring or fall and cut before it gets ripe. In its green state it makes excellent pasture. Sow 75 to 100 lbs. to the acre. Lb. 10c, 10 lbs. 65c, 100 lbs. \$5.00.

Rye, Spring--This is distinct from winter rye, and it does not stool out like that variety, but the straw is equally valuable. Market price.

Rye, Winter--Our sales on Winter Rye are increasing every year, and it is being used for winter pasture more generally than any other seed. It is very hardy and will stand any amount of cold weather and not winter kill. Every farmer should see that he has a small quantity of rye sown every fall. Market price.

Cow, or Stock Peas--The Cow pea more so than any other leguminous plant, has the power of extracting the expensive nitrogen from the air and storing it in its roots, thereby acting as a costly fertilizer. They will make poor land rich and greatly increase the productiveness of good land. Sow broadcast about one bushel per acre, and if wanted for hay, cut when about two-thirds of the vines have formed pods. We are large dealers in Cow peas. Write us for prices.

Peanuts, Tennessee Red--Especially adapted to black waxy land, as well as sandy land. There are three large nuts in each pod, and it is very prolific. Lb. 25c postpaid; by freight or express, lb. 15c. 10 lbs. \$1.50.

Peanuts, Spanish--The earliest variety grown. Pods small, but remarkably solid and well filled, and the yield per acre is very large. The best variety to grow for fattening hogs. Lb 25c, postpaid; by freight express, lb. 15c, 10 lbs \$1.25 50 lbs. \$5.00.

Peanuts, Virginia Improved--The mammoth Virginia Peanut is a very profitable variety to grow and is more largely planted in the peanut growing section of Virginia than all other varieties combined. It is easily cultivated, has very erect stems, upright foliage larger pods and kernels than any other variety; also yields fewer imperfect pods. The vines make a valuable forage for stock. Lb. 25c. postpaid: by freight or expressed, lb. 15c. 10 lbs. \$1.50.

NORTHERN GROWN POTATOES

Plant in rows three feet apart, eight bushels to the acre. Potatoes are forwarded by express or freight, as directed, but purchaser must take risks from freezing or heating.

Please Remember that the potatoes we offer are grown strictly for Seed and carefully assorted by taking out all the very large, as well as the small potatoes, leaving an even sample.

Early Ohio: The standard extra early sort. Matures about two weeks before Early Rose. It is widely known and deservedly popular in all parts of the country. A short, thick, round, oblong potato. The flesh is solid, of extra good quality and flavor, very mealy, even when only partly grown. A favorite with the truck gardeners and one of the very best sorts for this country. Pk. 50c, bu. \$1.50.

Early Rose: This is a variety that needs no description. This stock we offer, however, has been as carefully grown and selected as any variety of potato we offer, and must not be confounded with the stock usually offered which has not been grown for seed. Pk. 50c, bu. \$1.25 not prepaid.

Early Six Weeks: One of the earliest potatoes on the market. Medium size, smooth, oblong; skin pink, flesh white: tubers grow close

together in the hill, and grow so rapidly that under favorable circumstances they are fit for family use in six weeks from the time of planting and mature in ten or twelve weeks. It is a very desirable potato for the home garden. Pk. 50c. bu. \$1.50.

Bliss Triumph: Red. We are large dealers in this potato and can furnish very fancy stock in any quantity. Write for special quotations. Pk. 50c. bu. \$1.65.

Fruit Growers Attention

The advisability of spraying your fruit trees is now considered a

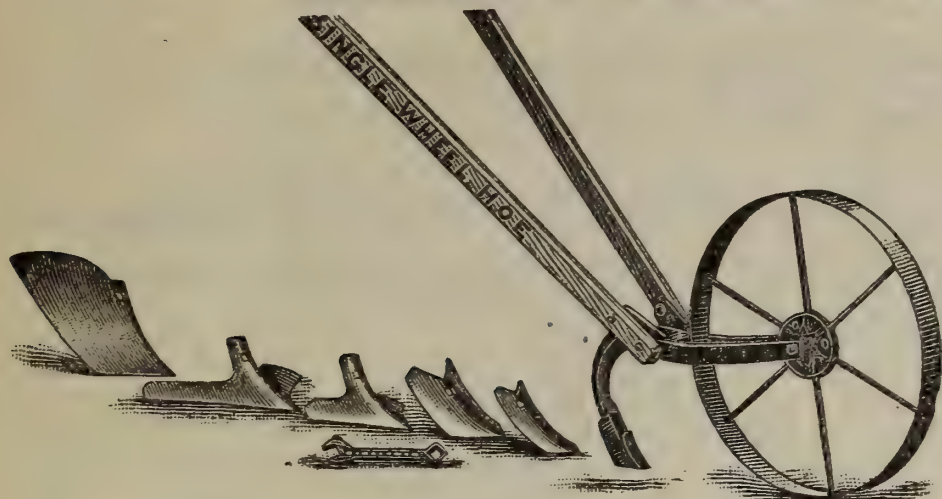

necessity by the best informed fruit-growers. We carry in stock a complete line of high grade Spray Pumps of all sizes; let us figure with you on your requirements.

No. 324

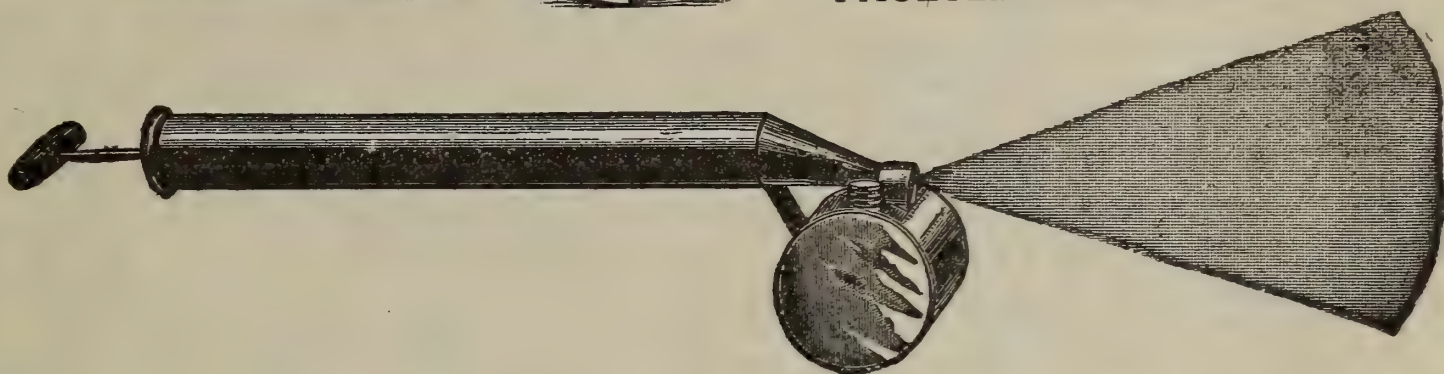

GARDEN TOOLS AND SUNDRIES

LEE'S SINGLE WHEEL HOE

Especially designed for small gardens; cheap and effective tool for hand operation; fitted with a high steel wheel and wheel arms and a variety of finely shaped, hard smooth steel attachments. For light work we believe this is the best tool on the market. We sold several dozen last season and they proved to be a very satisfactory and practical tool. Price complete with attachments, \$3.00.

FAULTLESS SPRAYER

Is Adapted for the Destroying of Every Kind of Insect.

One-half table spoonful Paris Green and once filling with water is sufficient to destroy all the bugs on 130 hills of potatoes.

The Faultless Sprayer is absolutely the best constructed sprayer of its class ever offered to the trade. For strength and durability it has no equal. The tapering point to air chamber gives great force to the spray, carrying it to the greatest possible distance. Each 50c.

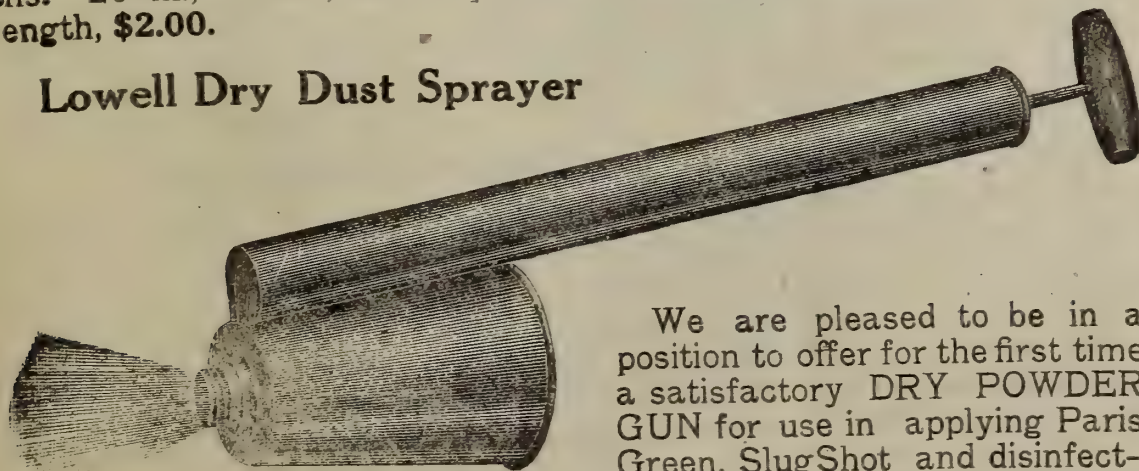

The Rhodes Hand Pruner--- Solid steel tool, length 9 inches. Having a double cutting edge cuts from both sides of the limb and does not bruise

the bark, but leaves a clean smooth cut that heals up rapidly. Every fruit grower will appreciate the advantage of a pruning shear that has a double cutting edge. Price \$1.50.

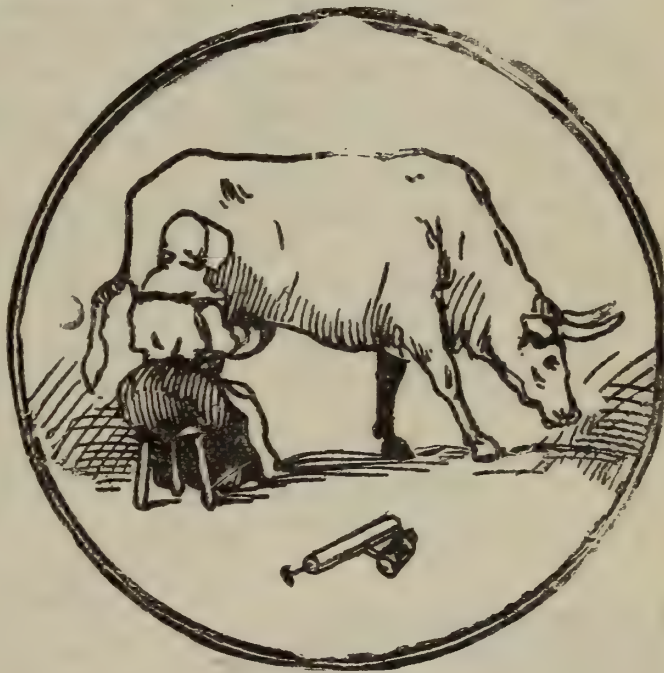

The Rhodes Wood Hand Pruner--Made in four lengths. 20 in., 26 in., 30 in. and 36 inches. Price any length, \$2.00.

Lowell Dry Dust Sprayer

We are pleased to be in a position to offer for the first time a satisfactory DRY POWDER GUN for use in applying Paris Green, SlugShot and disinfectants in dry form. Very largely

used by poultry raisers in applying lice killer in dry form. Price 50c.

Conkey's Fly Knocker--

Kills every fly it hits and keeps others from alighting on your horses or cows. It clears your stock of the pests and promotes their comfort and usefulness. It is especially valuable to farmers dairymen, stablemen and horseshoers. Once tried you will never be without it. Qt. 35c, 1/2 gal. 60c, gal. \$1.00

POULTRY SUPPLIES

We carry a full line of POULTRY SUPPLIES and Poultry Remedies

PRICES NAMED ARE F. O. B. CARS THIS CITY

Crushed Oyster Shells—Contains 95 to 97 per cent lime. Very frequently hens do not lay for the reason that they are not supplied with the necessary lime to produce the shell. It is a mistaken idea to believe that because rocks and gravel are accessible to hens that this is all they require; this assists the digestive organs but does not supply the lime necessary to the formation of the shells. Per lb. 5c, 10 lbs. 25c, 100 lbs. \$1.00.

Mica Crystal Grit—Aids digestion, contains iron and magnesium. Essential to all poultry. Per lb. 5c, 10 lbs. 25c, 100 lbs. \$1.50.

Cracked Poultry Bone—Manufactured from fresh clean bones and is perfectly pure and sweet. It is recommended very highly. Per lb. 5c, 8 lbs. 25c, 100 lbs. \$2.75.

Mat Meal—This is a true egg-producing, flesh and bone-forming food and supplies just what laying hens and growing chicks require. 50 lb. drum \$2.00.

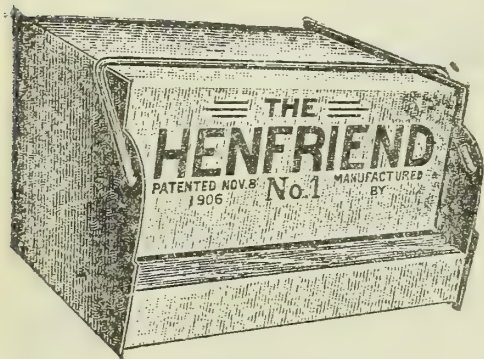

Beef Scraps—One of the most valuable foods for hens that can be obtained: 50 lbs drums, each \$2.00.

Lees Mixed Hen Feed—A complete and properly balanced chicken feed, containing Kaffir corn, millet, wheat and other grains with a small percentage of oyster shells, grit and poultry bone. The cheapest and best feed you can buy. 10 lbs. 25c, 100 lbs. \$2.00.

Lees Mixed Chick Feed—Especially mixed for small chicks, containing small grains, sifted rice, oyster shells, etc. Nothing better for small chicks. 8 lbs. 25c 100 lbs. \$2.50.

Mixed Pigeon Feed—Composed of grains especially adapted for Pigeons. 8 lbs. 25c: 100 lbs. \$2.75.

Charcoal—(Medium) prepared expressly for poultry; aids digestion. Lb. 10c--3 lbs. 25c. 10 lbs. 50c ---- 25 lbs. \$1.00.

Hen Friend—

(See Cut) Provides a shallow drinking trough with a reserve supply of water that comes down automatically as the fowls drink

it out. Made of best galvanized iron.

No. 1, capacity 2½ gallons--75c each.

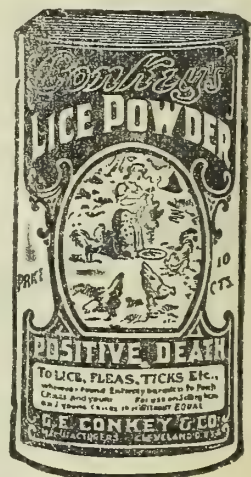

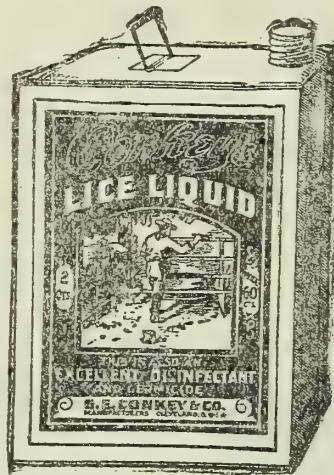

No. 2, capacity 1¼ gallons--50c each.

MYERS' FAULTLESS SPRAYER—Used to apply Lice Liquid or for any other purpose for which a sprayer is required. (See cut and description on page 25.) Price 50c.

Rocky Ford
Cantaloupe.
TRUE STOCK

The fruit is very slightly ribbed and densly covered with coarse netting, flesh green, deep, sweet and delicious. The seed we offer is carefully grown and selected at Rocky Ford, Colorado, by the same grower who has supplied us for the past ten years, the high quality of which is well established among the melon growing districts of the South.

Pkt. 5c, ¼ lb. 25c, lb. 65c,
—postpaid 75c

Roses, Chrysanthemums and Flowering Plants

Except where otherwise quoted, plants to be shipped at purchaser's expense and risk.

The plants we have to offer have been grown especially for our trade, and all orders will be shipped direct from our greenhouse on the day order is received, insuring our customers fresh stock.

Strong plants, red, white, yellow, pink and variegated. Per dozen, 75c.

CARNATION PLANTS

Next to the Rose it is difficult to think of a more beautiful and fragrant flower. We offer very fine plants in separate and mixed colors. Each 10c, per dozen 75c

CALLA LILLIES

Six inch pots, ready to bloom, each 50c.

VIOLETS

California—Per 100 60c.

Russian Per 100 60c.

BEGONIA

Flowering—One of the most easily raised plants; like the geranium. Per clump 10c.

WYSTERIA

CHINESE: Strong 2 year old, field grown. Best hardy vine to plant. Each 25c.

MAGNOLIA TREES

Three foot trees each \$1.00; 5 foot trees each \$1.50.

HYDRANGEA

Paniculata Grandiflora—One of the finest shrubs in cultivation. It grows to a height of 7 to 10 feet; flowers in great pyramidal panicles white on opening, but assuming rose and bronze tints on exposed sides. Blooms produced in August when few other shrubs are in bloom 2 to 3 feet 25c each, \$1.50 per 10.

AMERICAN EVERBLOOMING—A most valuable hardy shrub, and unlike the above, commences to bloom in June and continues into August. Grows best in full sun, though it thrives in partial shade. 1 year field plants, 50c each.

PRIVET

CALIFORNIA—A shrub of upright growth and dark green, glossy leaves. This is the most popular hedge plant. Nearly evergreen in the South. 18-24 inch, 10c each, \$3.75 per 100.

SPIREA

ANTHONY WATERER—A hardy variety of dwarf dense habit, bearing a profusion of crimson flowers of a shade peculiar to itself, blooming the entire summer. Strong plants 25c each.

VAN HOUTTEI—A very graceful shrub growing 6 to 8 feet in height and producing a profusion of single white flowers in early spring. Quite hardy. 3-4 feet, 25c each, \$1.50 per 10.

CLEMATIS

These graceful free flowering vines are well adapted for trailing on balconies, porches, etc., or for covering walls and fences.

HENRY II—Large creamy, white free flowering. 40c each (50c postpaid.)

JACKMAN II—Velvet purple, free flowering and the most popular variety. 40c each. (50c postpaid.)

PANICULATA—One of the most beautiful hardy vines. Flowers pure white, borne in large panicles or clusters, fairly covering the upper portion of the plant. Fragrance resembles the English hawthorne. A rapid grower, 15 to 20 feet. Perfectly hardy, 25c each (35c postpaid.)

SUMMER FLOWERING BULBS

Every lover of flowers should grow some of the bulbs offered
below for flowering during summer

DAHLIA BULBS

We offer very extra quality Dahlia Bulbs, grown in New Jersey by one of the best Dahlia specialists known to the profession. These are in every way first class bulbs, and will produce splendid flowers. This is a rare opportunity to obtain new stock of Double Yellow, Pink, Red and White. Each 20c (postpaid 25c), per doz. \$2.00, not postpaid.

CANNA BULBS

It is difficult to convey in language an idea of the beauty of a Canna plant and flower. They are universally used in private gardens, parks and cemeteries. Plant in the spring when the soil has become warm. They will bloom in June and continue until frost. We have procured our stock from one of the best Canna growers in the East, and at prices offered no one can afford to be without a bed of these fine flowers.

NAMED VARIETIES

Italia, 5 ft.—An orchid-flowered Canna of recent introduction, producing flowers from 6 to 8 inches across and in color effects surpasses the orchid, being of a rich, flaming scarlet with a yellow border.

Austria, 6 ft.—New giant golden lily-flowered Canna, of brilliant rich yellow, spotted towards the center with carmine. Exceedingly handsome.

Queen Charlotte, 3 ft.—Scarlet, bordered with gold; very large.

Madame Crozy, 5 ft.—Scarlet, with yellow border.

Florence Vaughan, 4 ft.—Yellow, spotted red. A famous Canna which is hard to beat.

Paul Marquant, 4 ft.—Bright salmon scarlet. Extra large flower.

Charles Henderson, 3 ft.—Bright Crimson with yellow center.

Egandale, 4 ft.—Bronze foliage; color currant red.

Any of the named varieties 10c each, or 6 for 50c, postpaid; 75c per doz. by express.

Mixed Bedding Cannas—(Tall)—Per doz. 50c; 65c postpaid.

Mixed Bedding Cannas—(Dwarf)—Per doz. 50c; 65c postpaid.

We recommend a liberal use of bone meal mixed with the soil for bulbs.

Tuberose—(Dwarf Pearl)—The Tuberose is a beautiful, pure white, wax-like, sweet-scented double flower, which remains a long time in bloom and are so fragrant as to perfume the whole atmosphere for some distance. Each 5c, 4 for 15c, doz. 25c (postpaid 30c).

GLADIOLUS BULBS

One of the most attractive of all summer flowering bulbs. If by mail, add 5c per dozen postage.

Calladium Esculentum (Elephant Ear)

One of the most beautiful and striking of the ornamental foliage plants, for planting out on the lawn. When of full-grown size it stands about 5 feet high, with immense leaves, often measuring 4 feet in length by 2½ in breadth. Plant out in March in rich soil and give abundance of water in dry weather.

First Size Bulbs—1½ to 2 inches in diameter (15c prepaid) 10c each.

Larger Bulbs—2 to 3 inches in diameter (30c prepaid) 20c each.

Mammoth Bulbs—4 to 6 inches in diameter (40c prepaid) 30c each.

CINNAMON VINE

Desirable climbing vine and very hardy. Flowers are white, having the smell of cinnamon, hence the name. Tubers 5c each, (50c per doz. postpaid), doz. 40c.

Maderia Vine

Sometimes called Mignonette Vine. Tuberous rooted climber, with glossy green leaves, of rapid growth, bearing graceful racers of deliciously fragrant white flowers. Very useful for screens, trellises or for pots in the house. Each 5c, (doz. 40c prepaid), doz. 35c.

Columbia Plant Tubs

These tubs are made of selected Louisiana cypress free from sap.

Zinnias (Mixed)—Very brilliant. Pkt. 5c.

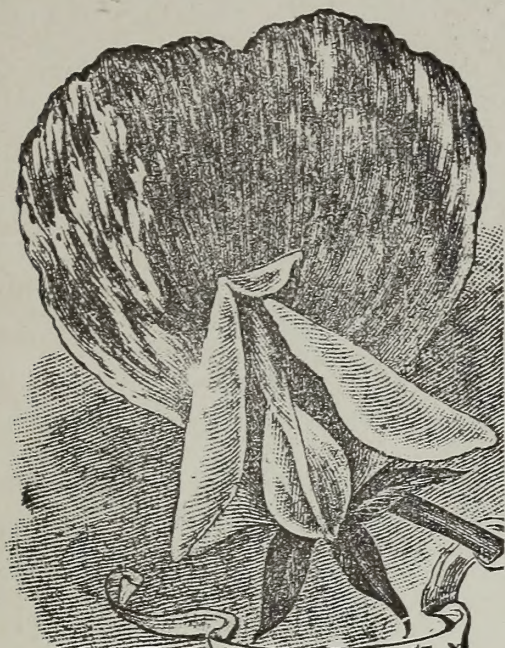

Fertilize your Flower Bed with Bone Meal.
See page 17,

SWEET PEAS

We offer a very choice stock of **Sweet Peas** which we can assure our customers will give them the best results

CULTURE

SOW early in a trench 5 or 6 inches deep, and covering them at first with *only one inch* of soil; then as the plants grow fill in the earth about them, *one inch at a time*. After the plants are well grown up they should be watered liberally and Bone Meal, worked into the soil about the roots, is recommended.

NAMED VARIETIES

Emily Henderson—A clear white sort. Wings broad and well expanded.

Lady Beaconfield—A bright but delicate salmon pink.

Her Majesty—The flowers are beautiful delicate rose-pink color.

Firefly—Very bright and intense crimson scarlet.

Butterfly—Beautiful violet.

Dorothy Tennant—Large flowers of warm violet color.

Captain of the Blues—Standard blue.

America—The most brilliant of the red striped sorts.

Fascination—Standard lilac, wings blue and tinged with lilac.

Othello—A very dark maroon, practically self colored with almost black veining.

Navy Blue—A true blue.

Senator—Broad large flower of lavender striped and splashed with maroon.

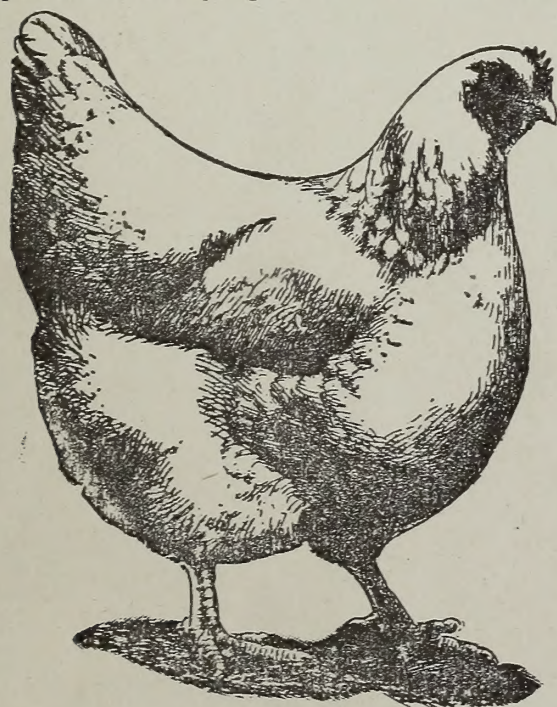

ANY OF THE ABOVE NAMED VARIETIES OF SWEET PEAS—Oz. 10c, 1/4 lb. 20c, lb. 50c, postpaid 60c

Lee's Royal Mixture of Sweet Peas—Contains over thirty varieties of the best and newest named sorts. Every color and tint is represented in our **Royal Mixture**, which makes a truly great combination. Oz. 10c 1/4 lb. 20c, lb. 50c, postpaid 60c.

Lee's Special Mixture of Sweet Peas—A mixture developed by an English specialist which represents the highest art in Sweet Pea culture. The flowers are mammoth size, of the most delicate shades and markings. We can only offer a limited quantity of this special mixture this season. See cut, (an exact reproduction) on outside of back cover page. Pkt. (containing sufficient quantity of seed to plant ten feet) 25c, Postpaid.

Eggs—For the first time we are in a position to offer our customers some very fine settings of a few Standard Breeds of chickens. Orders will be shipped as nearly as possible on dates ordered. All shipments made at purchasers risk and expense.

White Orpington—Among the largest breeds of chickens, averaging 1/2 pounds more than Plymouth Rocks and 1 pound more than Wyandottes. There is something about this stately and handsome breed that appeals with irresistible force to women. Matures early, pullets often laying when 4 1-2 months old.

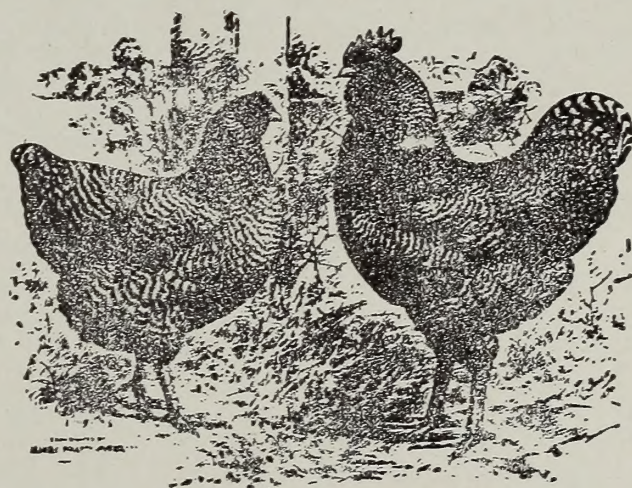

WHITE ORPINGTON

The Eggs which we will have to offer are from hens costing \$10.00 apiece and while our eggs of this one variety will be limited we expect to be in a position to furnish a great many settings and we suggest placing your orders early.

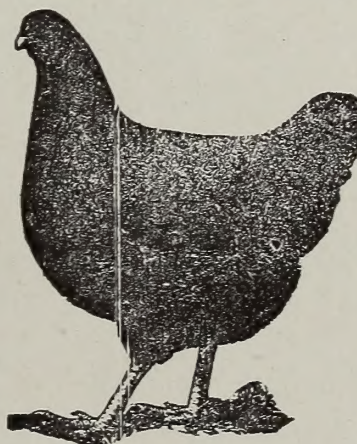

Setting (15 Eggs) \$5.00.

Barred Plymouth Rock—An old and well known breed of chickens, which are very popular with many. Our stock is from one of the best breeders in America.

Setting (15 Eggs) \$2.25 not prepaid.

BARRED PLYMOUTH ROCK

RHODE ISLAND RED

Rhode Island Red—A breed of poultry which is becoming very popular. They have red plumage, yellow skin yellow legs and bill. Great egg producers and fine table fowl. Setting (15 Eggs) \$2.25 not prepaid.

Houdon (Eggs White)—One of the oldest French breeds. Quite popular in America. Setting (15 Eggs) \$2.25 not prepaid.
